

LOCAL NEWS.

The price of pease is lower than for several years.

Little Sister picked dewberries to make huckleberry pie for Sunday dinner.

The freight rate is so high the dewberry growers are threatening stop shipping.

It is reported here that houses were blown down by the storm at Parkton Tuesday evening.

This is the year for locusts to come, and they are already eating up crops in some places.

President Coolidge and family have gone to their summer home in the Black Hills in South Dakota.

We wonder if the law which forbids a man's holding two offices applies to everybody, or to undesirables only.

Mr. and Mrs. H. L. Gatlin and family, Misses Pauline, Marguerite and Hallie Freeman and Mr. Crawford Thomas spent last week at Myrtle Beach. Mr. and Mrs. T. B. Lester and Mrs. J. H. Austin spent the week, end with them while they were there.

We are told boll weevils are killing the buds in the cotton plants now. Catch 'em and kill 'em, boys. When you kill one now, you prevent a million that will destroy your crop later.

Notice of Sale of Land Under Deed of Trust.

At the time and place and upon the terms named herein below and pursuant to the power of sale contained in that certain Deed of Trust executed on the 21st day of May, 1925, by H. S. Kirkpatrick to J. Bat Smathers, trustee, for J. R. Sheffield, and registered in the office of the Register of Deeds for Hoke County, N. C., in Book No. 48 at page 427, default having been made in the payment of the indebtedness secured by said Deed of Trust, and demand having been made upon said Trustee to foreclose said Deed of Trust as therein provided, the undersigned trustee will sell at public auction to the highest bidder for cash all that certain tract or parcel of land lying and being in Hoke County, N. C., McLaughlin Township, and further described as follows, to-wit:

Adjoining the lands of John Scull on the north; adjoining the lands of Lewis Parker on the west, adjoining the lands of the late Russell McNeill estate on the south and on the east. This being the same lands heretofore conveyed to said H. S. Kirkpatrick by James Proctor, Trustee, or Commissioner, in the year of 1914 or 1915 (estimated to contain thirty acres, more or less).

Time of Sale: Thursday, June 23, 1927, at 12 o'clock M.
Place of Sale: Court House door, Raeford, N. C.
Terms of Sale: Cash.
Posted this 23rd day of May, 1927.
J. BAT SMATHERS, Trustee.

JOINS FOUNDATION IN AIDING FARMER

Georgia Experiment Station Cooperates With Sears-Roebuck Agricultural Program.

ANOTHER big cotton crop in 1927 doubtless will depress the market again as it did in 1926 and cause cotton growing to be decidedly unprofitable, according to H. P. Stuckey, director of the Georgia Experiment Station. This forecast was made by Mr. Stuckey in a lecture for the Radio Short Course over WSB, Atlanta, and which was conducted by the Sears-Roebuck Agricultural Foundation in cooperation with the Soil Improvement Committee of the National Fertilizer Association.

"As a result of this situation," said Mr. Stuckey to his radio-farmer students, "cotton growers are very properly casting about for other cash crops to supplement their incomes from cotton. The south-east imports large quantities of hay every year. We can grow hay here cheaply from leguminous crops such as soy beans, cowpeas, etc. Southern hay, properly cured and baled, will find a ready market in competition with hay shipped in from other regions. Soy beans, velvet beans and cowpeas are splendid grain, as well as hay crops, and may be sold for seed purposes, as well as used for stock feed. Cowpeas also are in good demand for human food in practically all southern markets. These may be grown at a profit.

"The demand for peanuts for confectioneries and oil production is increasing annually, and a part of our cotton lands could be devoted to this crop at a profit. Any surplus of peanuts not finding a ready cash market, easily could be converted into pork by feeding them to swine. The more fertile soils of the coastal plains are well adapted to sugar cane for the production of sirup. This finds a ready sale in the south and east. Sorghum is valuable both for sirup making and stock feed. There are two distinct markets for sweet potatoes. The Jersey variety is especially adapted to harvesting in late summer and shipped promptly to northern and eastern markets. There is room for considerable expansion in the growing of early varieties of sweet potatoes for shipment northward, while the moist varieties are more in demand in the south. These can be cured in storage houses and sold during the winter as the market demands.

"Some of the profitable crops of the coastal regions are spinach, kale and lettuce, to be shipped north in winter. Farms located near industrial plants and manufacturing centers will find it profitable to grow limited areas of turnips, mustard and collards. This year should offer encouragement to the producer, for many industries are being developed in the southeast, and this means a larger consuming public and better markets for agricultural commodities."

"As a result of this situation," said Mr. Stuckey to his radio-farmer students, "cotton growers are very properly casting about for other cash crops to supplement their incomes from cotton. The south-east imports large quantities of hay every year. We can grow hay here cheaply from leguminous crops such as soy beans, cowpeas, etc. Southern hay, properly cured and baled, will find a ready market in competition with hay shipped in from other regions. Soy beans, velvet beans and cowpeas are splendid grain, as well as hay crops, and may be sold for seed purposes, as well as used for stock feed. Cowpeas also are in good demand for human food in practically all southern markets. These may be grown at a profit.

Says Don't Depend on a Single Crop

"MAKE your plans each year so you will be safe, if it turns out to be one of the worst years." This was the advice given by W. C. Lassetter in a talk on "Food and Feed Crops for the Southeast" during the Radio Short Course, conducted by the Sears-Roebuck Agricultural Foundation over WSB, Atlanta.

Mr. Lassetter told his farmer-students not to embrace cotton as their sole means of support. In view of what happened in 1914, 1920, 1921 and 1926, he said that no man could doubt the wisdom or economy of that farm practice which insures a constant preparedness for seasons like the one just past. It is no wonder, he asserted, that many a farmer feels the necessity of putting just a little greater proportion of his land into cash crops, with the hope of making a little money. One farmer who had been buying most of his feed told Mr. Lassetter that he was going to change, but wanted a guide to determine how much he should grow. Mr. Lassetter's answer to him was this:

"For each mule working 200 days a year you will need 50 to 65 bushels of corn or its equivalent in oats. For each four-gallon cow you will need 2 1/2 tons of legume hay, 25 bushels of corn, 40 bushels of oats, 700 pounds of cottonseed meal and one to two acres of pasture. For each hog you grow to 200 pounds you should have 18 bushels of corn or about 14 bushels with pasture. Each sow and two litters need 125 bushels of corn, 50 pounds of tankage and 50 pounds of shorts, and in figuring out the acreage required for the several crops mentioned make it a rule to plant for a bad year."

Cough, hicough, slop, enough, through, though, now pronounce these words, you who do not memorize.

Good quality of Voiles 17 1/2c yard, all colors.

TO ALL HOLDERS OF SECOND LIBERTY LOAN BONDS NOTICE OF REDEMPTION

All outstanding Second Liberty Loan 4 per cent bonds of 1917-18 (Second 4's) and all outstanding Second Liberty Loan Converted 4 1/2 per cent bonds of 1917-18 (Second 4 1/2's) are called for redemption on November 15, 1927, pursuant to the terms of their issue. Interest on all Second 4's and Second 4 1/2's will come on said redemption date, November 15, 1927.

Holders of Second 4's and Second 4 1/2's will be entitled to have the bonds redeemed and paid at par on November 15, 1927. Such holders may, however, in advance of November 15, 1927, be offered the privilege of exchanging all or part of their bonds for other interest-bearing obligations of the United States. Holders who desire to avail themselves of the exchange privilege, if and when announced, should request their bank or trust company to notify them when information regarding the exchange offering is received.

Further information may be obtained from any Federal Reserve Bank or branch, or from the Commissioner of the Public Debt, Treasury Department, Washington.

A. W. MELLON, Secretary of the Treasury. Washington, May 9, 1927.

Pains disappeared

"SEVERAL years ago I was badly run-down," says Mrs. John Bunch, R. F. D. 3, Columbia, S. C. "I could not do any of my work. I was so weak I could not wash a dish. My back and sides hurt me at times dreadfully. I dragged around until I finally got down in bed."

Then, explains Mrs. Bunch, she happened to read about Cardui, and decided to give it a thorough trial, the results of which she describes below:

"It seemed to reach the cause of my trouble at once. I did not take it long before my appetite began to improve. I gained in weight from 114 pounds until now I weigh 125 pounds. I soon was able to be up around the house. I took up my household duties and was delighted with my returning strength."

"I now do all my own work. The pains in my sides and back have disappeared and I feel like a different person."

Cardui has been used with success in cases of weakness for nearly 25 years.

Sold by all druggists.

CARDUI
A Vegetable Tonic

When the Time Comes

for you to change your grade of coffee, try our new brand. We installed a mill and have the very best grade of coffee we could buy in the bean, and we want you to give it a trial. We also have tea of several kinds, and all kind of groceries that you may need. Fresh vegetables all the time. We can furnish you your ice cream in any amount you may want.

"STANDARD" GASOLINE

These cars stand up!

EVERY General Motors car is built to represent General Motors quality and value throughout its life. Whether its potential mileage is to be used up by one owner or several owners makes no difference.

That is the reason for the high resale value of the current series of the General Motors cars. It is also the reason why USED General Motors cars offer real opportunities.

General Motors dealers are dependable merchants and will give you, if you wish to buy out of income, the advantage of the low rates of the GMAC Plan of time payment.

The price ranges of the new General Motors cars are given below. Pick out the car which interests you most. Then clip and mail the coupon. We want to tell you all about that car and also why General Motors cars, used or new, offer real value to their purchasers.

CHEVROLET

8 models—\$525 to \$780. The quality car of the low-priced field. 3-speed transmission. Dry-disc clutch. Smooth, powerful engine. Fisher Bodies. Duco finish. Fully equipped.

CHEVROLET TRUCK CHASSIS: 1/2-ton, \$395; 1-ton, \$495.

6 models—\$775 to \$975. Has largest 6-cylinder engine in its price class. Fisher Bodies. Duco finish. Beautiful, stylish lines. Value proved by unprecedented sales.

PONTIAC 1/2-TON CHASSIS, \$585; with screen body, \$760; with panel body, \$770.

11 models—\$875 to \$1,190. Gratifies your finer taste. Satisfies every need. Fisher Bodies. Duco finish. 6-cylinder motor. Harmonic balancer, 4-wheel brakes and other new features.
