Bring this complete automobile show into your own home

THE national automobile shows in New York and Chicago were too far away for most Americans to attend. But by clipping the coupon below, you can bring a representative automobile show into your home.

At the shows General Motors exhibited a complete line of automobiles—"a car for every purse and purpose."

They are the quality cars of their respective price classes. They range in price-at-the-factory from \$495 to \$5,500. They include 89 models of every type and kind. They embody improvements tested and proved at General Motors' Proving Ground, which, together with the Research Laboratories, is maintained to assure continuous progress.

"A car for every purse and purpose"

The General Motors cars are briefly described below. The new models offer more performance, more comfort, more beauty than ever before in automobile history. All have 4-wheel brakes. All closed bodies are by Fisher. All have Duco finish. All are built of quality materials. And for their convenient purchase, General Motors has provided the standard low-cost GMAC Plan.

**CHEVROLET.** 7 models, \$495 to \$715. Bigger and better than ever before. 4-wheel brakes. Longer wheel base. Still more powerful engine. Luxurious Fisher Bodies. Shock absorber springs. New hood. New Duco colors. New instrument panel and other improvements. ALSO truck chassis: 1/2-ton, \$395. 1-ton, \$495.

**PONTIAC.** 8 models, \$745 to \$875. The lowest-priced quality "six." Improved from radiator to tail-light. For example: 4-wheel brakes, new GMR cylinder head, increased power, locking device, more luxurious Fisher Bodies. Finished in Duco in new colors.

**OLDSMOBILE.** 7 models, \$925 to \$1085. Entirely redesigned by General Motors, the new Oldsmobile has earned the title of "The Fine Car at Low Cost." Longer, roomier, more powerful—and the last word in styling. Fisher Bodies. 4-wheel brakes.

**OAKLAND.** 9 models, \$1045 to \$1375. The All-American Six. Advanced engineering and precision construction. Longer, lower and more beautiful. Bodies by Fisher. Every convenience. 4-wheel brakes. New Duco colors. Harmonic balancer.

**BUICK.** 16 models, \$1195 to \$1995. The largest value in Buick's famous history. Beautiful low bodies by Fisher. Getaway like an arrow from a bow. Vibrationless beyond belief. Famous 6-cylinder "Valve-in-head" engine. Sealed-in chassis.

**LASALLE.** 16 models, \$2350 to \$2975. This beautiful car was designed as companion car to Cadillac. Has V-type 90 degree 8-cylinder engine which has made Cadillac the standard fine car of the world. Built in Cadillac factory. Continental in appearance.

(All prices F. O. B. at the factories)

**CADILLAC.** 26 models, \$3295 to \$5500. "What," General Motors asked last year, "can possibly be done to improve Cadillac?" The result is embodied in the new models now on display, representing the high-water mark of Cadillac's long history. Sumptuous bodies by Fisher and Fleetwood. 500 color combinations to choose from.

**FRIGIDAIRE—The Electric Refrigerator.** General Motors has applied the processes which have made the automobile available to every family, to the production of electric refrigerators. Frigidaire is the refrigerator made by General Motors and it is now the world's largest selling product in its field.

**DELCO-LIGHT Electric Plants.** Provide the conveniences and labor-saving devices of the city for the farm. Electric light and power plants, water pumps, etc. Used in more than a quarter-million homes.
