

**HOKE COUNTY JOURNAL**

**AROUND TOWN,**

Miss Bennie McFadyen has returned from Queens College.

Mr. Mack McDiarmid is out again after a two weeks illness.

Mr. H. L. Gatlin, Jr., a senior at Wake Forest College, is at home this week.

Mrs. Ida Johnson Lancaster of Parkton visited Mr. and Mrs. C. B. Johnson Monday.

R. H. Buckingham, a prominent citizen of Fayetteville fell dead in Highsmith hospital Tuesday.

Miss Mary Lee Seate, who was in school at Meredith College, Raleigh, arrived last Saturday.

Mrs. Julian Johnson is getting on nicely after an operation at Highsmith hospital last Friday.

Miss Pauline Freeman left last Friday to attend commencement at Meredith College, Raleigh.

Cotton is now growing just well enough, and so are other crops. The prospects are now good.

Miss Elma Brown of Pine-tops spent the week end with her sister, Miss Sadie Belle Brown.

Buncombe County now plans to feed its pure bred dairy herds by building silos and planting alfalfa.

Mrs. Luke Bethune had several members of the school faculty as her guests at dinner Wednesday evening.

Miss Annie Black McFadyen spent last week in the home of her uncle, Mr. R. P. Howard of St. Pauls.

The wheat and oat crops are very fine all through the county we are glad to learn, for these help out mightily.

Mr. Robert Covington returned from Drs. Lilly, Jordan and McKay's hospital last Friday, and is getting along nicely.

Prof. and Mrs. W. E. Pell entertained the school faculty and a number of other friends Tuesday evening, but a detailed account of this is forced to wait until next issue.

Mr. and Mrs. N. J. Covington of Charlotte recently visited Mrs. Covington's parents, Mr. and Mrs. J. C. McLean, Sr., and Mrs. McLean returned to Charlotte with them.

Five million pounds of live poultry has been shipped from North Carolina since the first of this year, a third more than was shipped during the same months last year.

Rebecca, wife of Rev. J. D. Kemp, col. died at her home in McLaughlin township Thurs day, May 16th, and was buried Friday at Silver Grove church near Raeford. She leaves a husband and several children.

Commercial vegetables and fruit growing will likely pass away from North Carolina if the Mediterranean Fruit Fly gets a start here. The pest attacks peaches, apples, plums, figs, tomatoes, melons, and all other fruit of similar character.

H. M. Tedder drove his Ford car against a high pole by the Rockfish road with sufficient force to break the pole in three pieces. The wire fell across the car, and the rubber tires saved him, it is said. Mr. Clyde Upchurch went out to find the why of a lack of juice up this way, found the man asleep in his car, removed the wire from the car, shut off the power and repaired damages next morning. The Ford car was not badly damaged.

A year old son of Julius Campbell, colored, died of colitis a day or two ago.

Miss Marguerite Freeman arrived Sunday from Meredith College, Raleigh, for the summer vacation.

Miss Annie Mae Patton of Brevard arrived last Wednesday to spend some time with her sister, Mrs. Arch Graham.

Messrs. D. E. and Leon Barrington of New York City and mother of Clio, S. C., are visiting Mr. and Mrs. W. R. Barrington of this city.

**ANNOUNCEMENT.**

I hereby announce myself a candidate for City Alderman for the Town of Raeford, North Carolina, in the election to be held Monday, June 3rd, 1929, and ask the support of all qualified voters.

L. B. MONROE.

**Business Women Meet.**

The Business Women's Circle met last Friday afternoon at Pappy Creek Mill, the home of Mr. and Mrs. Fred P. Johnson.

The bountiful picnic dinner was laid on the lawn in front of the home, and was greatly enjoyed by the large crowd of members and guests attending this, the last meeting of the year.

**BUSINESS BUILDERS.**

Genuine "JANTZEN" and "BRADLEY" Bathing and Swimming Suits, at Baucom's Cash Store.

Good Work Shirts for boys, only 48c, at Baucom's Cash Store.

Fresh FISH Saturday 10c.

Cracker Jack Store

Men's high-grade regular \$1.50 Caps, adjustable size, choice for only 98c each, at Baucom's Cash Store.

**FOR SALE—**A good Soda Grinder, Cotton Hoes, Plow Sweeps. Raeford Hardware Co.

Men's pin cheek Work Pants from 98c pair up, at Baucom's Cash Store.

**WANTED—**men to learn to grade and staple cotton, good positions. The Carolina Cotton School will give a course in Fayetteville during this month. Mail applications to Suite No. 12—301½ W Trade St., Charlotte.

**FOR RENT—**8-room dwelling on Donaldson avenue. Water and lights. Rent Reasonable. See D. A. Brock, Raeford.

New Shipment Men's White Duck Trousers just received at Baucom's Cash Store

**FOR SALE:** Screen Doors, Wire Screen, Cloth Fly Swatters, Daisy Fly Killers, Bean Beetle Dust, Arsenate Lead, Spray Pumps and Dusters. Raeford Hardware Co.

**KODAK FINISHING—**Any size Kodak film developed and six glossy prints for 30 cents silver. Satisfaction guaranteed. PHOTO CRAFT, 122 Russell St., Fayetteville, N. C.

**Search for Treasure in Prehistoric Ruins**

Half way up a valley called the Quebrada of Humahuaca on the borderland of Bolivia are the prehistoric ruins of Tilcara, standing on a high, steep mountain, overlooking the river far below. Strange and fascinating legends cling to this ancient town of the dead. Often treasure hunters have disturbed its slumbers in their arduous quests. Long ago, when the people of Tilcara buried a chief, they covered his face with a golden mask.

I wished if possible to obtain a memento of my visit, so I took a guide, climbed far up the steep trail to the ancient ruins, and looked for graves. Most of the natives hereabouts are very superstitious. They will not go near the "dead towns," as they call the ruins; they say that disaster or death may overtake anyone who meddles with ancient graves. With them the fear of such misfortunes is usually above the lure of lost treasures.

But my guide was an exception. He located the graves by stamping on the ground. If it sounded hollow, he would bore into the sandy soil with a thin steel rod about five feet long. In this way we found several graves, shaped like old-fashioned straw beehives. The dead were buried doubled up, in a sitting position.

The graves usually contained a few pots probably filled with food and coca leaves when placed there. We also found tools and drinking cups with the dead men.—A. F. Tschiffely in the National Geographic Magazine.

**Strategy That Saved Expenditure of Lives**

When in 1688 Count William of Nassau was at war against the Spaniards and had won the Philippine line in Flanders, he soon saw that the Spaniards would do everything to get it back again. As he could not get any reinforcements soon enough to help him, he tried to receive them. He therefore sent for sixty empty ships and on each of them, besides the necessary crews, one musician. When evening came these ships sailed out and, arriving near the threatened line, the musicians started playing different marches, some in Scottish, others the French, and again, others the German march. This made a tremendous noise which caused the Spaniards to think that the Dutch had received reinforcements. They therefore went quickly on the run, and Count William saved the Philippine line from the enemy without shedding a single drop of blood.

**Texas' Beginnings**

Texas won her independence from Mexico and became known as the "Republic of Texas" in 1836. In the years immediately following there were repeated invasions and massacres by the Mexicans, who never abandoned their claims to the Texas territory. They advanced three times as far as San Antonio, but in each case were repelled. Statehood was offered to Texas, but the question of annexation brought up the difficulties of the slave question, which became the national issue of the Polk campaign. However, he won the presidency by favoring the annexation of Texas. Before he took the oath of office, congress passed a joint resolution again offering statehood to Texas, which she accepted and the territory became a part of the United States in 1845.

**List Taking, Blue Springs Township**

I will be at the following places for the purpose of listing taxes:

Bethel School House - Saturday, May 25th

Bowmore - Saturday, June 1st

My residence - Tuesday, June 4th.

Listing closes June 15th.

W. B. McNEILL, List Taker.

**Seismograph in Place of the Priests of Pelee**

Tidal waves used to be things that just happened. They swooped down unexpectedly, destroyed life and left the shores strewn with the wrecks of ships. Nowadays tidal waves are not so much to be feared, for men have learned to read the advance signs of nature. The warning sent out from Kilauea volcano observatory in Hawaii several hours in advance of a possible tidal wave gave people more than ample time to make themselves snug and moor their ships fast.

Luckily, if the earthquake 2,200 miles away did cause a wave, it was not serious in Hawaii. And Pelee, looking down from the place where exiled goddesses abide, if there be such a place, must have been pleased that what science predicted did not amount to much. For Pelee was the goddess who dwelt in the eternal fires of Kilauea until the missionaries chased her out. Her ancient priests, too, uttered their prophecies of tidal waves. The difference is that the men who now make the predictions, depend upon the seismograph. Pelee's priests relied on the wrath of Pelee against people who did not behave to suit them.

**Surgery's Great Debt to Humble Guinea Pig**

If a guinea pig could live long enough, he might become something of a scientist himself. His constant association with scientists and with the most daring and advanced. He might himself solve the mystery of why he is called guinea pig, being neither a pig nor originating in Guinea.

When memorials are reared to those who have done the most for medical and biological science, shouldn't the guinea pig have one—even a statue, Robert Collier, writing in the St. Louis Globe-Democrat, asks. This small animal has suffered, bled and died for the human race. We owe it honors.

It is a vicarious martyr, for surgery, now the wonder of the world, going so far as to rejuvenate man, could secure so much thorough and convincing results, if it could practice on man instead of guinea pigs. In this, the knife must wait on time and circumstance, and go slowly, for there are few voluntary guinea pigs among human creatures.

**Museum for Him**

Mr. and Mrs. Stone were doing the town recently in their newly purchased auto. The day being ideal Mr. Stone was constantly going into raptures concerning almost everything. His enthusiasm reached its climax just as they were rounding the Art museum.

It was here that the exuberant husband turned a lingering glance at a pair of striking blondes on the walk. "Please keep your eyes in front and your mind on the car," was Mrs. Stone's snappy suggestion.

"But, dear," replied the piqued one. "I shall always admire beauty despite the fact that I am a married man."

"Well, that being the case," answered the less appreciative Mrs. Stone, "we'll spend the balance of the day across the way in the museum."

—Philadelphia Public Ledger.

**Almanacs Once Prohibited**

Almanacs date back to early civilization. It is known that the Greeks and Romans had them. Some of the oldest almanacs in existence were published during the Thirteenth and Fourteenth centuries. The Almanach Liegeois was typical in that it contained dire prophecies. This almanac, which became famous by predicting the end of Mme. Du Barry's career, found a great circulation in rural France, and provided, for those who could not read, an easily understood system of symbols. So great was the influence of these almanacs over superstitious people that at one time almanacs were prohibited in France.

**Surely Got in Wrong**

She was a slight young girl, but having recently married and become the mistress of a pretentious home, had become seriously obsessed by the importance of her position, which in no manner conformed with her physique.

The other day she was summoned to the door by the ringing of the bell, and quickly discarding her apron and adjusting her hair, she went to receive the caller.

It was one of those door-to-door salesmen who, observing the dimmity of the young housewife, innocently inquired, "Is your mother in?" He probably will never quite understand why the door was so wrathfully slammed in his face.

**Valuable Loss**

Mrs. Woolley excitedly entered her lawyer's office. "Have you filed my application for a divorce yet?" she asked.

"No, madam," replied the lawyer; "but I am at work on the papers now."

"Thank goodness, I am not too late. Destroy all papers and evidence at once, please."

"A reconciliation has been brought about between you and your husband, I infer?"

"Gracious, no! He was run over and killed by an auto this morning and I want to retain you in my suit for damages against the wealthy owner of the car."

**Sea's Flower Garden**

Although the waters of the sea seem devoid of plant life to the casual observer, there float on the very surface countless billions of microscopic particles and plants that serve to form a marine pasture for the denizens of the deep, says the Boston Evening Transcript. Beneath the surface of the tropical seas one can find a veritable fairyland in which the flowers are usually biological specimens that gladden the hearts of the scientists, and the erratics are actually living creatures and not merely boulders transported from their original beds by submarine, volcanic or other action.

G. Y. JONES, Assistant Mgr.

**Years of service in MODEL T FORDS**

THE Model T was so strongly and sturdily built that it is still rendering reliable, economical service to motorists in every section of the country. Millions of these cars can be put in shape for two, three and five more years of use at very small cost.

So that you may have this work done economically and satisfactorily, the Ford Motor Company is still devoting a considerable section of its plants to the manufacture of Model T parts. It will continue to do so as long as they are needed by Model T owners. The following list gives the approximate labor charges for reconditioning the Model T Ford—

**Engines**

Tune motor (including replacement of commutator case, brush and vibrator points if necessary) . . . \$1.00

Grind valves and clean carbon . . . \$3.75 to 4.00

Overhaul carburetor . . . 1.50

Refine detachable car transmission bands . . . 1.50

Install new pistons or connecting rods . . . 6.00

Tighten all main bearings . . . 6.00

Overhaul motor and transmission . . . \$20.00 to 25.00

**Rear System**

Replace rear axle assembly . . . 2.50

Install universal joint . . . 3.00

Refine brake shoes . . . 1.50

Replace rear axle shaft, drive shaft pinion, or drive gear . . . 5.00

Overhaul complete rear axle assembly . . . \$5.75 to 7.00

Rebush spring and perch . . . 1.75

Oil and graphite springs . . . 3.00

**Front System**

Overhaul front axle . . . \$4.00 to 5.00

Rebush spindle bodies and arms (both sides) . . . 2.50

Replace or straighten spindle connecting rod . . . .75

Tighten radius rod or steering ball cap . . . .50

Tighten all sockets and joints of front end . . . 1.50

Replace front spring tie bolt or new leaf . . . 2.50

Straighten front axle . . . 3.00

**Chassis**

Replace rear fender . . . . . 1.75

Overhaul steering gear . . . . . 3.50

Repair muffler . . . . . 1.00

Overhaul radiator . . . . . 7.50

Repaint Coupe . . . . . 25.00

Repaint Sedan . . . . . 25.00

Repaint Touring Car . . . . . 20.00

Reupholster Runabout . . . . . 8.00

Reupholster Touring Car . . . . . 15.00

Replace top deck (Coupe or Sedan) . . . . . 4.00

Overhaul starting motor . . . . . 3.00

Overhaul generator . . . . . 2.50

These prices are approximate and are for labor only, because the need and number of new parts depend on the condition of each car. The charge for these parts is low, however, because of the established Ford policy of manufacturing and selling at a small margin of profit.
