

THIS WEEK IN DEFENSE

PRICES
Bureau of Labor Statistics reported food prices increased for the sixth consecutive month and are now about 6.5 percent above last November. Prices of all foods moved upward but the latest increase resulted from advances in prices for dairy products, fresh fruits, vegetables, pork and lamb, the bureau said.

The Department of Justice announced Federal Grand Juries in San Francisco, New York, Philadelphia, Hartford, Denver, Dubque and Washington have indicated 300 firms and individuals in a nation-wide drive to prevent unwarranted increases in food costs.

AGRICULTURE
Agriculture Secretary Wickard asked for a one-third increase in Cheddar cheese production and a one-fourth increase in evaporated milk. He said an increase in total milk production, asked several weeks ago, has been made, but the milk supply must increase in areas surrounding cheese and evaporated milk plants. He said prices would be supported by Government purchases for lease-lend activities.

CONSUMERS
The Office of Price Administration and Civilian Supply suggested that local consumer groups aid the defense program by establishing local market radio news service, analyzing price rises, and establishing consumer information centers to advise on buying problems and check quality, grading and labeling of consumer goods.

PROSPECTIVE OIL and POWER SHORTAGE

Secretary of Interior Ickes, Defense Petroleum Coordinator, said a temporary restriction on the use of gasoline and oil on the East coast may become necessary because of the shortage of tanker transportation. He said a proposed \$70,000,000 pipe line

from Texas to ease the situation would require 12 to 15 months to build.

The Federal Power Commission began a series of conferences with electric utilities officials regarding rapidly expanding defense needs for power, aggravated by a drought in the mid-Atlantic and Southern areas. President Roosevelt asked Congress for \$285,000,000 to complete the Great Lakes-St. Lawrence seaway and power project to permit ocean-going vessels to reach the Great Lakes and make available an additional 2,200,000 horse-power of electric energy.

HOME DEFENSE
New York's Mayor LaGuardia, Director of the Office of Civilian Defense, reported it will take at least a year to obtain equipment to protect the nation's cities during bombing raids. He said it would cost about \$43,000 each to equip the permanent fire companies in the country, and in many places auxiliary fire companies would be needed.

FOREIGN AFFAIRS
Secretary of State Hull said French German collaboration threatens seriously to alter French relation with the United States. The President told his press conference rumors on German-English peace discussions were Nazi-inspired and not true.

SHIPS

President Roosevelt authorized the U. S. Maritime Commission to take over foreign ships in U. S. ports. The Commission announced it has arranged with Britain for American ships to take over services from Canada and the U. S. to Australia and New Zealand to relieve English vessels for war work. The Commission also announced purchases of 26 merchant ships for use as Army and Navy auxiliaries and ordered Atlantic and Gulf Coast line ships operators to make available 50 percent of their

Youthful and Aged Play Saddest Accident Roles

Saddest roles in America's tragic highway accident drama are played by the very young and the very old, according to an analysis of the 1940 accident record recently issued by The Travelers Insurance Company.

When a baby under four or an elderly person over 65 is killed by an automobile, the chances are greater than six out of ten that it will be a case of being struck down by a modern jehu. True, death strikes often in every age group, but the gruesome picture of this slaughter of usually innocent pedestrians is one to give every motorist pause.

Traffic deaths among youths in

the 5 to 14 age group are split about equally between pedestrians and operators or occupants of vehicles. Almost as many children in this group are killed in bicycle accidents as in smashups involving two cars.

In the age group 15 to 64, a relatively small percentage of persons on the death list where pedestrians, according to this latest analysis.

tonnage - between 60 and 70 vessels, totaling 375,000 tons for the 2,000, 000 ton emergency shipping pool for lease-lend operations.

Navy Secretary Knox announced competitions would be worked out to speed building of ships by awards to the fastest workers and the fastest shipyards.

NAVY
Navy Secretary Knox announced the launching of the 35,000-ton battle ship South Dakota five months ahead of schedule. He said he hoped the warship would be ready for service by January although this normally takes a year after launching. Mr. Knox said the Navy's 35,000-ton ships far exceed in power, guns and armor the sunken German warship Bismarck. The Navy announced that all Atlantic bases acquired from Great Britain are now available for limited operations and will be completely finished within a year.

ARMY AIR
The War Department announced high school graduates without sufficient education to become officers may enlist in the Air Corps for training as pilots. Applicants between 19 and 22 will receive preference. The Army said eventually 20 percent of its pilots may be enlisted to fly and given the rating of flight sergeant with pay of \$108 to \$207 per month, depending on length of service.

The War Department also announced Army Air Corps aviation cadets now receive the same pay and allowances as Navy and Marine flyers and receive a \$500 bonus for each year or fraction of a year of active duty, and \$10,000 in insurance.

SELECTIVE SERVICE
Selective Service Deputy Director Hershey asked Congress to approve legislation authorizing deferment of all men 27 or more years old last October 16. SS Headquarters amended regulations to permit review of classification at any time prior to induction.

DEFENSE FINANCING
The Budget Bureau estimated the Federal deficit for the current year would be \$747,000,000 less than previously estimated because of the higher tax collections and cuts in non-defense expenditures.

Some Fallacies And Facts About Dairy Products

Fallacy: Thunder sours milk and cream.

Fact: Thunder does not sour milk and cream. These products are soured by bacteria which multiply most rapidly in warm milk or cream during summer months, and thunder storms usually occur in warm weather.

Fallacy: Milk products should not be eaten in combination with fish or meat.

Fact: Actually dietitians say that any foods which can be eaten separately can be eaten in combination with equal safety.

Fallacy: Skim milk is worthless.

Fact: Skim milk contains the important milk minerals, milk sugar, milk proteins and vitamin G. For these nutrients it is just as valuable as whole milk.

Fallacy: Pasteurized milk does not taste as good as raw milk.

Fact: Actually, taste tests show that properly pasteurized milk can not be told from raw milk.

Fallacy: Milk is a baby food.

Fact: Milk is just as important to the adult to rebuild body tissue, build resistance to disease, and to prolong the prime of life as it is to a baby for development and growth.

Fallacy: Milk is fattening.

Fact: Milk is not fattening. It is the food eaten with milk that adds extra pounds. Milk builds healthy, strong bodies which enable starches and fats to cause an increase in weight.

Of Interest To Wheat Growers And Buyers

Here is information of importance to any person who buys, sells or handles wheat this year under the AAA's first national marketing control program for wheat.

E. Y. Floyd, AAA executive officer at State College, advising that any combiner, processor or grower of wheat should approach his county AAA office for administrative details of the marketing quota program immediately, today offered this outline of facts:

The non-allotment farmer who harvests wheat in excess of his usual acreage and the allotment farmer who seeded in excess of his allotted acreage must "clear" themselves with AAA authorities - either by paying the penalty of 49 cents a bushel on excess removal or by providing satisfactory removal of the overage from trade channels - before they may receive marketing cards. Unless the farmer can show his marketing card, Floyd said, the buyer or combiner will know that the offered is subject to penalty.

Buyer and producer of wheat sold without marketing card will be jointly liable for payment of penalty. Action will be taken by the office of the U. S. Attorney General in Federal Court if the penalty established for the individual farm is not paid within 60 days after completion of the harvest.

If the producer shows a marketing card, however, the buyer or combiner will know that the wheat may be handled penalty-free.

Special arrangements will be made to accommodate growers who market wheat by telephone or mail, Floyd said.

LEGAL NOTICES

NOTICE OF SALE

Pursuant to an Order signed by the Clerk of Hoke County Superior court dated May 26th, 1941, appointing the undersigned commissioner to sell the land below described, in an action instituted by said County vs Mrs. Sarah Jane McFadyen (widow) et als., the said commissioner will offer to the highest bidder for cash the following land at the court house door in Raeford, N. C., at 12 o'clock, noon, on the 26th day of June, 1941, viz:

In Little River Township, Hoke county, N. C., on both sides of lower Little River, and beginning at a stake, Priest's and Gilliland's corner in the Indian Pond branch, and runs with M. E. Gilliland's line S. 32 degrees W., crossing the river to a pine stump, said Gilliland's 2nd corner; thence S. 43 degrees W. 38 chains to a stake; thence S. 9 degrees W. 31 chains to a stake; thence N. 85 degrees E. 9 chains to Sarah Smith's line and D. G. Smith's corner; thence N. 27-30 degrees E. with Sarah Smith's line to a stake on the South bank of the river; thence down the various courses of the river to a stake driven into a cypress tree, the beginning corner of Sarah Smith's 88 acre tract; thence crossing the river N. 17 chains to a pine, 2 pine pointers near Hosses marsh; thence N. 15 degrees E. 25 chains to the beginning, containing 96 acres, more or less.

EXCEPT from the above about 86 acres in the boundaries of Ft. Bragg, leaving whatever of the foregoing which may not be embraced by said Fort, to be sold and conveyed. For further reference see Book of Deeds No. G-4, page 25 of Cumberland County public registry, which conveyance and description are duly adopted and hereinabove quoted.

Posted May 26th, 1941.

ARTHUR D. GORE, Commissioner

Lowe Brothers
MELLO-GLOSS
SEMI-GLOSS WALL PAINT

THE SOIL-PROOF BEAUTY TREATMENT

LOWE BROTHERS MELLO-GLOSS is the modern soil-proof semi-gloss wall paint—the perfect washable beauty treatment for your home. The satiny lustre of Mello-Gloss is especially adapted to any wall surface—and best of all, there's no need to worry about fingerprints, dirt or smudges. They wash right off with ordinary soap and water.

And Mello-Gloss retains its stylish beauty after repeated cleanings. Come in and let us show you how to re-style your rooms with Mello-Gloss fashion-tested colors. Ask us for your FREE copy of Lowe Brothers "Color Keys to Sunlit Homes." This full-color book contains the latest ideas on paint-styling, and valuable hints on painting your home.

*Impervious to soil under normal home conditions.
