## SCHOOL BRIEFS

The school tonsillar clinic that was put on last Wednesday, Thursday and Friday under the auspices of the county school health committee and with the help of the Red Cross, PTA's, and Welfare Department was a tremendous success. One hundred and one pair of tonsils were removed. At this writing all patients are getting along splendidly, in fact, some of them were back in school on Monday.

Drs. Hodgin, Bendu, and Murphy, and the staff of nurses and helpers deserve all of our thanks for the good work that was done.

We wish to thank everyone who by their personal help, or through the lending of equipment, helped in any way to make the clinic a success.

It was very fortunate indeed that it turned out that the Armory could be used. It was an ideal place to hold a clinic; it was light, airy, all well heated. We appreciate its use.

Dr. Hodgin has promised that he will remove the tonsils of those who were turned down for various physical reasons at the clinic here at his clinic in Red Springs on next Friday (the day after Thanksgiving). He will do this for the same price that he did the operation here. We think that this is a very fine thing for him to do. We hope that everyone will take advantage of his offer.

Tuesday night a delegation of 14 or 15, composed of County Board of Education members and members of the District School Boards and principals, attended the Southeastern District Meeting of the State School Board Association held in Fayetteville. Those attending heard Senator H. E. Stacey of Lumberton in an address on the "Foundations of the State and Local School Boards" and Hon. C. A. Dees of Goldsboro, State president of the association. The meeting was held in the cafeteria of the Fayetteville high school.

It has been announced that the lunch room in the Rockfish school has been opened. This lunch room is being operated under the auspices of W.P.A.

L. C. Thornton, Bus Route Engineer for the State School Commission was to be in the county this week to assist as far as possible all bus routes where there were any complaints.

Mrs. Pansy Fetzer, of the state staff of N.Y.A. was in town this week in reference to the N.Y.A. lunch room project that we have been trying for so long to get started. We hope that we will soon get some results.

Miss Murphy's room in the Antioch school has put on a sales campaign, and raised enough money to buy a nice curtain for their cloak room. This will be a great improvement to the room and they will be proud of it.

The white bus drivers of the county have organized a Bus Drivers Club. Their aim is to improve and make more safe bus transportation in Hoke County. We think this is a very fine thing. Parents and everyone interested in the transportation and welfare of our children should appreciate this fine spirit on the part of our drivers.

Some of the school folks of the county attended a meeting held by the State Department of Education in Fayetteville yesterday to study and discuss the 12 year school system that is to be introduced for the first on a state wide basis next year.

It should be a matter of pride to the citizens of Hoke County that you have had this system in force for the past 5 years, being one of the 6 units in the state to have had the 12 year system that long. Hoke is one of the 3 counties to have it, being second to New Hanover and ahead of Scotland.

Mrs. Z. G. Ray, primary teacher in the Rockfish School has been out sick for several days. It is hoped that she will soon be able to resume her duties.

Katie Broadway, teacher in the Laurel colored school, was called home last week on account of the death of her mother. All of her friends will sympathize with her in their bereavement.

The white schools of the county are having a holiday today and tomorrow. The colored and Indian schools are having a short day schedule today and appropriate Thanksgiving exercises. They will be on full schedule tomorrow.

Mary Helen Gatlin, who attends Meredith College, spent the holidays at home.
