In Memoriam PAUL DICKSON 1859 - 1935

MRS. PAUL DICKSON, Editor Entered as second-class mail matter at the post office at Raeford, N. C., under act of March 3, 1870.

Paper Needed For Many War Uses

New York, April 11.—As part of our national efforts toward defense, waste paper is being gathered in unprecedented quantities.

Daily the radios and newspapers send out their call to housewives, janitors, and others to collect all waste paper so that it may be converted into articles of military usefulness.

Of course, a way hasn't been found yet to make deadly ammunition or impenetrable tanks and battleships out of paper, but a thousand other things that will help us toward victory are made of paper.

Old newspapers, magazines, and wrappings can be converted into cardboard or fiberboard of various kinds. Government-contracted plants use this reclaimed paper to make packing cases, shell cases, 75-mm. gun shrapnel containers, ammunition packs and tags.

Cases for Food Last year, the army and navy used 9,000,000 cases of canned goods. The army and navy are much larger now and need a correspondingly larger number of cardboard packing cases to ship and hold its millions of pounds of food, ammunition, parts, medical supplies, and clothing. Most of these products used to be shipped in wooden or other kinds of containers. Wood and metal are now required elsewhere and fireboard does just as well, besides weighing a little less and taking up less space.

The military forces have a hundred needs for paper products. For instance, two-inch-long, shellacked paper tubes are used as powder containers of flares. The flare shells are attached to tiny parachutes made of special "parafare" tissue paper.

One way for the Quartermaster department to make certain that the right article reaches the right place is to use the right kind of identification tag. These are of paper. So are the attached clasp envelopes that contain detailed lists of the packages' contents. The envelopes are secured to the package through four eyelets. One in each corner, are easily removed, and when the container is emptied, envelope and list can be conveniently filed for future references.

Spreading

Sanitation is a great military weapon. The lack of it can knock out a division as fast as enemy artillery fire. The head-rests, therefore, of Army and Navy dental and barber chairs are covered with disposable crepe paper caps. Nurses and doctors wear disposable paper uniforms when handling contagious cases.

Medical supplies are of the first importance in warfare. They must be packed properly to insure safe arrival. For surgeons' knives, there is a special long, narrow box with inserted rests that hold the knife in place. For drug ampules there are now variously compartmented boxes.

For America's parachute troops the paper manufacturers have devised a small, heat-resisting, fiber carton. Each carton contains a highly concentrated meal: three cartons contain 3,211 calories or more than a plentiful day's ration, yet three cartons weigh but a few ounces. When landing, the paratrooper may accidentally crush the paper carton, but he won't injure himself as he would if the container were of metal.

In the summer of 1940 the Army ordered 35,000 cartons in which to store 40,000,000 surgical dressings requested from the Red Cross. By August 1, 34,000,000 of the 40,000,000 dressings were available. According to Red Cross officials, they can now turn out 4,000,000 dressings a month if needed.

Cardboard containers and packing cases are needed for blood plasma,

which is playing an important role in this war, possibly restoring to action 35 per cent more men than the regular blood transfusions could.

Letters To The Editor

Editor News-Journal, Raeford, North Carolina. Dear Sir:

We received a News-Journal today for the first time in approximately four months. In this issue we see where the editor asked the people for magazines to send to the boys in Curacao. We think this is a grand idea, but what we can't understand is why the editor waited until now to think of boys from Hoke county who are in foreign service. We have been here for nearly twelve months and we have never received reading material or any thing else from Hoke county. When we first came here twelve months ago there were approximately seventy-five of us. Now there are only about fifty of us.

We would greatly appreciate it if the boys from Curacao don't mind, if they would divide their magazines with us.

THE BOYS IN TRINIDAD FROM HOKE COUNTY. April 9th, 1942.

The above letter has just been received. The News-Journal is sent to a number of boys in Trinidad "gratis" every week, at the especial request of Lt. Paul Dickson but it seems that the boys who wrote this letter are on the Island Chacachacare and the paper didn't get to them, but if it is possible to get it there, it is going from now on. We also suggest that Hoke county people get busy today and send these boys some magazines.

Address—Hoke County Boys, A. P. O. 803, Trinidad, B. W. I., Chacachacare.

STRAIGHT FROM THE SHOULDER

BY JOHN BARBEE

The Bible has a definite message to every man and woman. We are responsible for this message whether we read it or not. Many folks know the issues set forth by the Bible only by hearsay. This is a pretty risky business, for God is by far more concerned that His word be closely observed and obeyed than any draft board is concerned with its decisions or orders.

In America we can buy a Bible for a few cents. We can hear the gospel on streets, in churches, jails, institutions, etc. Millions of gospel tracts are in circulation. Bible schools are abundant. Yet the ignorance of the great majority of our people concerning the dynamic issues of eternal hell, sin, the death of Christ, and the new birth is appalling. We imagine that we have no time for reading the Bible. This is as logical as a doctor's not having time enough to study his books of medicine, or a lawyer's not having enough time to study his books of law; it is their business to study their books and know them. Most of us make time for whatever we really want to do. If we're too busy to find what the Bible has to say to us, we're too busy. It is our supreme business as responsible to Almighty God to know what He says to us and demands of us. Herein rests our fate for time and eternity.

INCREASE

Since becoming a demonstration farmer in 1936, Wiley Perry of the Beaver Dam township in Watauga County has increased his income by \$800 annually while expenses have increased only about \$300.

"The 'kitchen brigade' can clean up Hitler"

DON'T wash dishes under the faucet. Use good sudsy water in a pan—with a rinse of hot water. It's healthier—and thriftier. Between-plates running water is wasted water and wasted money. Remember: water power is defense power.

Save your pennies for U. S. SAVINGS STAMPS—to scour Hitler off the map. Every U. S. SAVINGS STAMP AND BOND is added energy in America's war effort.

The subscription of many of those who paid for 1 year during the baby contest had expired in the spring of 1941 and that only marked the subscription up to this spring. This will explain why some subscriptions are now out.

SCHOOL NEWS OF THE PAST WEEK

By K. A. MacDONALD

On Tuesday night the Rockfish P. T. A. held its regular monthly meeting with Mrs. Marshal Newton, president, presiding. After the business session the program was turned over to the teachers. The school then put on a patriotic program. A sextet of ladies from the community helped by singing two numbers. One of the songs sung by the school was a patriotic song written by Miss Cleo Wood, a niece of the Rockfish Woods. This song has been published and should become very popular. The program consisted of songs, a tableau, a pantomime, a flag, and a recitation. The children did their parts splendidly and every one present enjoyed it. The children were roundly applauded and the teachers praised for the entertainment. After the program the ladies of the association had a social hour. They served delightful refreshments during the hour.

J. H. Hodgin, Jr., chairman of the Antioch school board, is a patient in the Veteran's hospital in Fayetteville. It is hoped that he will soon be able to return to his home at Antioch.

Last night the Educo Club held its regular monthly meeting at the high school and had as their guests the county board of education. At this time the board inspected the building and saw the advantages being offered the boys and girls of Hoke county. The board held a short business meeting during the course of the evening.

The Antioch P. T. A. was to have held their regular monthly meeting last Thursday evening, but were prevented from doing so by a bad storm.

The Rockfish pre-school clinic was held on last Wednesday.

Mrs. Stewart's class in piano will give their recital at Hoke high on the evening of Monday, April 27th, at 8:15 o'clock. Everyone is cordially invited.

The county-wide negro P. T. A. held its spring meeting at the White Oak school. The program included dinner on the grounds. All but 2 schools in the county were represented. The reports were very gratifying. It was decided to hold next fall's meeting at the Millside school. It was gratifying to those in charge that there were as many parents present as were.

Pearlie McDowell, of the Rockfish 6th grade is back in school after having undergone an appendectomy.

Last Friday was seventh grade day at Hoke high. The seventh grades from all schools in the county come in to the high school 97 strong. They were given a big day by those in charge. They were shown all the different departments of the school. They were given a band concert, had a free lunch in the cafeteria and were guests of the baseball team at the Lumberton game in the afternoon. It is believed that all 97 had a good time and are anxious to enroll in high school next fall.

The course in First Aid for high school students is being brought to a close. The students are reviewing and examinations will be given within the next few days. The appreciation of students and faculty is extended to Mesdames C. E. Upchurch, Sr., A. L. O'Brian, and H. A. Cameron for assisting the faculty in putting on this course in such a way that all pupils had the benefit of the course. This course being over the school will go back on regular schedule on next Monday including the lunch period. The numerous changes in schedule has been caused by the cooperation of the schools in the war effort. But so far as can be seen now there will be no more changes for the year.

The Rockfish declamation and recitation contest and Mrs. Stewart's piano recital will be held at the school building on Tuesday, May 5th, at 8:00 p. m.

The senior play, "Hobgoblin House," a mystery comedy, will be presented in the Hoke high school auditorium on the night of April 24 at 8 o'clock. Twelve characters, all seniors, will have parts in the play, which is under the direction of Miss Rebecca Doub. Spectators are urged to be prompt as the doors will be closed promptly at eight, and no one will be admitted during the first act.

Ashmont P. T. A. held its last meeting of the year on April 8th. A summary of the year's work was reported and plans made for the pre-school clinic. The canning committee asked that all parents plant a little extra in their gardens for the school canning next summer. The following officers were elected for next year: Mrs. Tom Sinclair, president; Mrs. D. F. Talley, vice president; F. L. Eubanks, treasurer, and Mrs. Margie Townsend, secretary. After the business the association entertained the pupils from this district graduating from Hoke high school and seventh grade of Ashmont school.

Ashmont school will present an operetta "America the Beautiful," Friday night at 8 o'clock. The cast

consists of around seventy-five pupils. The public is cordially invited.

On last Monday the Raeford faculty met at Clyde's pond for their last faculty meeting of the year and enjoyed a picnic supper. The food consumed was an indication of the enjoyment everyone had an unusually good time.

The Jeanes supervisor, Jenevieve Foushee, attended the state negro teachers' association in Greensboro last week. She was able to report 100 per cent membership for Hoke county and reported a very successful meeting upon her return.

On Thursday, April 9th, Hoke high met Laurinburg here on the local field. Laurinburg unleashed a 10-hit barrage and took advantage of 8 Raeford errors to top the Hoke high nine by a score of 17-1. Baseball came to Raeford again April 10th, when Raeford met Lumberton at the ball park. Eager for revenge, Raeford licked Lumberton by a shutout score of 10-0. R. Currie pitched 4-hit ball for Raeford.

On Tuesday, April 14th, Raeford played their last conference game here with Rockingham, although Rockingham won by a score of 12-2, this game will not be counted against Hoke in the conference percentages as Rockingham played ineligible players.

The First Aid class for colored teachers was completed on Wednesday. 40 teachers finished this course and have been teaching it to their children as fast as they toof it. Some of the men's class have finished while others are still working to make up lessons missed. 35 have been enrolled in this class. A class for women has been started with 10 enrollments up to the present. These classes are being taught by the Upchurch teachers who took the first teachers course taught by Dr. McCain, and the corps of teachers organized by him.

Stuffed Eggs in Tomato Jelly

by Dorothy Greig

The egg, thanks be, has a beautiful versatility. It's suitable for any meal from early breakfast, 'round the clock, to just off-the-swing shift supper. For instance, we use eggs here in a brightly seasoned luncheon or supper dish. The eggs are first

stuffed to mustardy perfection and then set to rest in refreshing vitamin-rich tomato jelly. Result — a piquant dish that delights the palate as well as providing sustenance for the inner man:

The eggs: 4 eggs, hard-cooked 1 tablespoon salad dressing or mayonnaise 1/2 teaspoon prepared mustard 1/2 teaspoon salt Dash of cayenne pepper

Cut the eggs in half crosswise. Remove the yolks and mash with a fork or put through a sieve. Then add the salad dressing, mustard and seasonings. Fill the egg whites. Place 1/2 stuffed egg, cut side down, in cup or mold and pour slightly thickened tomato gelatine over the egg. Chill until firm. Unmold and serve on lettuce with mayonnaise.

Tomato Jelly: 1 can (14 oz.) tomato juice 1 tablespoon gelatine (softened in 1/2 cup water) 1/2 teaspoon salt

Sprinkle the gelatine in the cold water and let stand for five minutes. Heat the tomato juice and dissolve the soaked gelatine in the hot tomato juice. Add the salt and chill until the tomato juice begins to thicken. Then pour over the stuffed eggs. Makes 6-8 (depending on size of mold or cup used).

THE NEWS-JOURNAL WILL ACCEPT country produce on subscriptions. Subscriptions may also be paid in one or two installments. BUT DON'T MISS TAKING THE NEWS-JOURNAL — HOKE'S SUPER ADVERTISING MEDIUM.

POLITICAL ANNOUNCEMENT

FOR COMMISSIONER

We, the members of the present Board of Commissioners of Hoke county, hereby announce our candidacies for nomination to the Board subject to the Democratic primary of May 30th, 1942. We appreciate the cooperation that we have received from the people of the county during the past two year in the administration of the affairs of the county, and ask your continued support.
