### CAREFULLY HARVESTED TIMBER

This landowner is not only harvesting his timber selectively but is selling poles, sawlogs and pulpwood instead of any single product. It is a waste of money to sell good pole stock for sawlogs, or good sawlog stock for pulpwood.

### Hoke County North Carolina

In The Superior Court November Term 1942. Report of Grand Jury Follows.

We have examined ten bills and found ten true bills.

The reports of all Justices of the Peace and Mayor of the Town of Raeford were found to be in order.

All reports of administrators and Executors were found to be in with the exception of one or two which we request that the Clerk of the Court complete if possible before the expiration of his term of office in December.

We have examined the Jail and Court House and found same to be in good condition with the exception of lights in the Jail which were found to be insufficient and in poor repair. We recommend that the lighting system in the Jail be put in good order, and that necessary fixtures be put in the wall and the plastering of walls around these fixtures be repaired immediately.

The County Office Building was found to be in good condition, and we wish to commend the Board of County Commissioners for the splendid quarters arranged for the Rationing Board in this building.

It has come to our attention that since the inspection of this County Office Building, that on last night several "German Swastikas" were painted on the top glasses of several windows next to the side walk, whether this be some prank or some subversive element working in our midst we feel that it is our duty to call it to the attention of this Court for any action he may deem necessary.

We have enjoyed our work with the Presiding Judge, and especially his emphasis on our "American Way of Life" which we as free citizens are enjoying today, and which we pledge ourselves to see shall always exist.

We also appreciate the splendid cooperation and assistance given to us by the solicitor.

Respectfully submitted, J. M. McGougan, Foreman. F. A. Keith, Clerk.

### What You Buy With WAR BONDS

Actual experience on the world's war fronts has proved the collapsible boat an essential safety feature for both Naval and land based planes. They are made of rubberized material, easily inflated.

At the Battle of Midway an Army Lieutenant, after bombing a carrier, was forced to bail out of his bomber. He was able to get a "fish eye" view of the entire battle from his collapsible boat and was later picked up by an American plane. The Brewing Industry, jealous of beer's good name, employs self-regulation to maintain wholesome conditions where beer is sold.

The beer dealer's license pledge binds him not to sell to minors, or to those who have over-indulged. It prohibits gambling — rough or coarse language — or hang-ers-on of a questionable character.

Those dealers who do not observe these simple rules are not welcome in this business. To them we say: "Clean Up or Close Up". If they don't clean up, after being warned, state enforcement officials will usually revoke their licenses on our complaint.
