under act of March 3, 1879.

SCHOOL NEWS

By K. A. McDonald.

The storm Tuesday night blew down two large pines on the grounds of the Raeford Graded School.

Miss Mary F. Peele, Home Economics Teacher and J. W. Dowd, Teacher of Vocational Agriculture, helped this week with the preparation for the "Store the Meat" campaign. Miss Peele attended meetings at Allendale and Rockfish. Mr. Dowd at Antioch.

The Mildouson P. T. A. held its regular monthly meeting Tuesday night at the school building. Mrs. Jesse Gibson, president presided. Mr. Morgan, who resigned as principal to go into service was able to attend this meeting. He was given a hearty welcome by the people. Mr. T. C. Jones, the new principal was introduced to the members and given a nice welcome. It was announced that the school had collected 14700 lbs of scrap during the scrap campaign and had received \$73.50 for it. It was voted to use this money for the lunch room. So far this is the best

report on the Scrap Campaign.

The Home Economics Department of the high school had the chapel program on Tuesday at which time they displayed the dresses the girls had been making so far this year. The prize for all girls went to Miriam Miller; the prize for third year girls to Ruby Wood; the prize for second year girls to Katherine Jones; the prize for first year girls to Margaret Haire.

In the afternoon at 4:00 o'clock the girls put on a fashion show for their mothers and other friends. After the show they served tea and brownies in the H. E. department. The mothers and all guests were delighted with the progress the girls were making. Prizes were given by Collins and Baucom's Stores, the two drug stores and Raeford Furniture Co.

V. R. White and Tom Cameron took the Boy Scouts for a visit to the Maxton Glider Base last Friday afternoon. The boys were very much interested by what they saw.

Thanksgiving Day was spent at school this year. Appropriate exercises were held in all the schools and a short day schedule was operated. This was done in the interest of the farm labor situation. Schools opened late this year on account of gathering Hoke's largest crop and the children will be needed on the farms early next spring.

The Red Cross drive in the Hoke High School was quite a success. The total amount contributed was \$31.58. The home room teachers and the amounts contributed are:

Miss Gill, \$6.00; Miss Adcock, \$4.62; Mrs. Lester, \$4.20; Miss Kendrick, \$3.65; Miss Fisher, \$2.30; Mrs. White, \$1.87; Miss Belche, \$1.85; Mrs. McLean, \$1.45; Miss Cress, \$1.33; Mr. Dowd, \$1.15; Mrs. Upchurch, \$1.11; Mrs. Gore, \$1.05; Miss Peele, \$1.00.

The school paper, The Hoke High Lights, was issued to its subscribers Monday, November 30.

Mr. White has just received word from the State Department of Education in Raleigh that the Rating of the Raeford Graded School has been raised from II B. to II A. We are proud of this rating. It is the best that can be received by a school of its size.

EGGS

Because of increasing egg prices, more town families in Sampson County are turning to backyard poultry flocks, says J. P. Stovall, assistant farm agent.

SPECIAL

Fresh grapefruit and tangerines, produced this year in record quantities, have been designated as the Victory Food Special for the period December 3 through December 12.

Share-The-Meat Program Calls For More Poultry

Pork, beef, veal, lamb and mutton will be rationed because there will not be enough of these meats for the armed forces if civilians eat all they want. But C. F. Parrish, Extension poultry specialist of N. C. State College, points out that poultry is not included in the Share-The-Meat program.

"Meats supply protein in the daily diet," says Parrish, "and for all practical purposes poultry and meat are identical in food value. Eggs are rich in protein. In addition, eggs are high in minerals and two of the B-vitamins."

"The yolks of eggs are especially rich in iron—the mineral that helps to form the red blood cells. They are a rich source of phosphorus—a good source of thiamin and riboflavin, two of the B-vitamins."

The Extension specialist says that poultry meat and eggs are like other protein foods—they must be cooked slowly and at a moderate temperature. High temperatures for long periods of time shrink and toughen the proteins. The secret of cooking eggs or any of the meats is to use moderate heat, even heat.

Parrish also emphasized that the color of the egg shell has nothing to do with egg quality. "A good egg may be brown or white," he declared.

The State College worker says that both broiler and egg production in 1943 will be above that of 1942. This year poultrymen are producing a total of 4,414 million dozens of eggs. The 1941 production was 3,829 million dozens. U. S. production of chickens in 1942 is estimated at 3,118 million pounds, compared to 2,722 million pounds in 1941.

CARD OF THANKS

We wish to express our appreciation for the many kindnesses and expressions of sympathy shown us during the recent illness and death of our husband and son.

Mrs. Edward Langston and
Mr. and Mrs. Harvey Cole.

CHOLERA

Stricter sanitation and more temporary pastures are enabling Pitt County farmers to lessen hog losses from cholera, reports S. C. Winchester, assistant farm agent.

Tracts or lots described in Book of Deeds No. 65½, at page 20, of Hoke County Public Registry, conveyed by McLaughlin Co., Inc. to John Graham, by deed dated March 28, 1929, containing a total of one acre as by said conveyance will appear, and to which reference is hereby made for description by metes and bounds.

Also any other land which may be owned by said party of the first part and that may adjoin the above described property.

This November 11, 1942.

Arthur D. Gore,
N. McN. Smith, Atty. 25-28

CHILDREN'S COLDS

FOR DIRECT RELIEF from miseries of colds—coughing, phlegm, irritation, clogged upper air passages—rub throat, chest, and back with Vicks VapoRub. Its poultice-and-vapor action brings relief without dosing.

ALSO, FOR HEAD COLD "sniffles" melt a spoonful of VapoRub in hot water. Then have the child breathe in the steaming vapors.
