In Memoriam
PAUL DICKSON
1889 - 1935

MRS. PAUL DICKSON, Editor

Entered as second-class mail matter
at the Post Office at Raeford, N. C.,
under act of March 3, 1870.

The News-Journal this week is carrying Christmas Greetings from the county officials and the business houses of Raeford. Not since the paper has been published have these people entered more wholeheartedly into this. They have all had a great year and that they could share this feeling with their fellow citizens was their pleasure and desire. If a grouch was found it is not worth remembering. All join with The News-Journal today in saying "MERRY CHRISTMAS."

Linotype Operator Ill

Another week and hard luck—our linotype operator has been very ill all week and no one was available anywhere to take his place. However, The Laurinburg Exchange came to our rescue and got the paper out on Christmas Eve for us. The paper is late again, but "C'est le guerre."

COLLINS' DEPT. STORE
RAEFORD, N. C.

YES, there IS a Santa Claus. There were times during this year of 1942 when we had begun to doubt it, and no doubt YOU had begun to doubt it, but now, when the Christmas spirit steals over the land we know that the Christmas story is true and that Santa Claus will come again, as he has always done. And so, with this cheering thought, we wish you a Merry Christmas.

RAEFORD HOTEL

So that Christmas Can happen There!

YES, we have practice blackouts now and then. And we're gradually getting used to ration books.

But America's Christmas will be warm with light and food and friendship — while war-worn peoples abroad face the cold night with fear and hunger.

American children may get fewer bikes and skates and trains — but the children of Europe's New Order, cowering in dark doorways, will get nothing.

Surely, every kid has a right to Christmas.

It is ironic but appropriate that on the birthday of the Prince of Peace, this nation should renew its pledge to win the war — so that all the world can share our kind of Christmas.

It will take everybody. Fighters and farmers and workers. It will take tanks and tractors and turret lathes — planes and plows and drill presses.

It will take an ever-increasing torrent of electricity to power the factories and serve the homes. . . . That's OUR job and we're doing it!
