CORDIAL WELCOME IS EXTENDED
ARMY PERSONNEL FROM
CAMP MACKALL

About five weeks ago, Officers and Enlisted men from the FIRST Airborne Camp, Camp Mackall, began looking for homes in Raeford and Western section of Hoke County. To the area, but are not doing any great damage except in isolated spots. They have apartments, houses

and rooms. A welcome such as was extended to those coming from three years ago is extended to these soldiers. When the advertising manager of the News-Journal suggested to its advertisers that we recognize these new comers this week, the suggestion met with hearty response. The fact is we couldn't get around and not nearly all of the Merchants and Business houses were given a chance to express their greetings. So it will just have to be continued—Anyway, they will give you information and the best service within their power, considering War Time shortages. The News-Journal and Its Advertisers say WELCOME TO YOU.

**Transplanting Time
For Tobacco Growers**

Lumberton, May 8.—Tobacco transplanting time for the Lumberton blue cured area has arrived, w/ tobacco growers hit by blue mold and short on plants, according to the crop condition report just issued by Jasper C. Hutto, supervisor of the Lumberton tobacco market. Present favorable weather conditions, however, have contributed to the optimism of the farmers.

Transplanting is in progress throughout the Lumberton area, the report says, with the scanty supply of plants growing well in the main, but having to fight the dreaded blue mold. Insects are reported all over the area, but are not doing any great damage except in isolated spots.

**Include Seven Basic
Foods in Daily Diet**

Mrs. Cornelia C. Morris, home economist in food conservation at N. C. College, calls attention to the seven basic food groups which should be included in the daily diet of every person to enable families to improve Wartime Diets and maintain nutrition standards.

In the first group are the green and yellow vegetables, some of which should be raw and some cooked. In the second group are oranges, tomatoes, grapefruit or raw cabbage, or salad greens.

Group three consists of potatoes and other vegetables and fruits, which can be eaten raw, dried or cooked, frozen or canned. Milk and milk products make up the fourth group.

In the fifth group are meat, poultry, fish or eggs. Dried beans, peas, nuts or peanut butter are also included. The sixth group consists of bread, flour and cereals, with the natural whole grain or enriched products giving the highest food value. In the final group are butter and fortified margarine.

Mrs. Morris says that the daily diet should be checked against these seven groups, and housewives should make the best possible use of the various foods which are available. This must be done if the nutrition standards of the nation are to be properly maintained.

She says: "To be vigorous and strong, eat the basic 7 every day".

**Be SURE That You
Remember Your**

Mother

**on HER DAY
Next Sunday, May 9th**

The girl who married dear old dad is the nicest girl you ever had;
So show her that you feel that way . . . make her Queen on the 9th of May.
Her role this year is more than great; for on her shoulders lies the weight
Of breaking ties, yet keeping cheer; of smiling thru that would-be tear.
We'd be defenseless in defense if it weren't for Mother's common-sense.
Morale would be just another word if Mother's case was left unheard.
"Hats Off To Mother" Is the theme . . . her day, our store can be a team
To make this coming Mother's event a day of remembrance lovingly sent.
