

Wartime Rationing Guide

BLUE STAMPS

(For canned, frozen and certain dehydrated foods.)
Blue Stamps N, P, Q, are good through August 7.

Coffee

Stamp No. 24 expired June 30. Stamp No. 21 good for one pound of coffee became valid July 1 and expires July 21.

GASOLINE

"A" book coupons No. 5 good for three gallons each and must last till July 21.

RED STAMPS

(For meat products, canned fish, most edible oils and cheeses.)
Red Stamps "P" and "J" now good and expire July 31.

Shoes

Stamp No. 18 now good for one pair of shoes and expires October 31.

SUGAR

Stamp No. 13, good for 5 pounds becomes valid June 1 and is good through August 15.

Stamps Nos. 15 and 16 in War Ration Book One now are valid for 5 pounds of sugar each, for use in home canning. They are good through October 31. Housewives may apply at local boards for supplementary sugar rations for home canning, is essential.

MAY USE OIL STOVES

North Carolina householders may use their oil cooking stoves this summer regardless of the availability of coal or wood-fired stoves OPA has announced. The present restriction denying fuel oil rations for domestic cooking and water heating, if adequate "stand-by" equipment is available, has been lifted because of the shortage of all fuels, and to encourage home canning.

State's Highways Praised In Greyhound Ads

The current advertisement of the Greyhound Lines — one in a series which is featuring the various institutions and wartime activities of our State — gives some pertinent and interesting facts about our highways. "We think that many citizens take our extensive highway system for granted — without ever stopping to realize how lost they'd be without it," said Mr. H. Pierce Bawner, Traffic Manager of the Atlantic Greyhound Lines, in discussing this particular advertisement. Every resident of this state should know about highways, how they are built, paid for, maintained and many other vital facts — and should give proper credit to the various boards and commissions responsible for their construction and use.

Mr. Bawner reports that the newspapers of the state are next in line for discussion in this series.

State College Answers Timely Farm Questions

Q. Will I have a good chance to get new planters, drills and fertilizer distributors next year?

A. J. D. Bieble, Extension Engineering Specialist at State College, says that supplies of these implements will probably be limited and that growers had best clean their old implements at once. If fertilizer is allowed to stand in the hopper, it will harden and corrode the metal parts, causing them to stick and break when the machine is again put in use. Make certain that the hoppers, valves, feed tubes and shafts are thoroughly cleaned, even though it is necessary to take the machine apart. After cleaning, give the exposed parts a thin coat of oil and store the machine out of the weather.

Q. Can you give me suggestions for the proper order of tobacco when placed in sale?

A. State College Extension specialists say that lugs and cutters are in proper order when they are just sufficiently moist to prevent injury in handling. Lugs, especially priming lugs, should be sufficiently dry to rattle slightly, when shaken, but not dry enough to break. Tobacco of Leaf grades can carry more moisture than lugs and cutters. The tobacco of this group should contain enough moisture to make the tobacco supple but excessive moisture should be avoided. Wrappers should be in fairly soft order when sold. If they are too dry, they will not show the oil, elasticity, smoothness, and finish required to meet wrapper qualifications. Wrappers should not, however, contain too much moisture as they bruise and discolor easily when in very high order.

HAY

Tests reveal that growers can produce more proteins, at no additional expense, by cutting hay crops at an early stage of maturity, when they will yield more protein than the same crops cut at a later stage.

LIBRARY NEWS

A collection of books is now available at the home of Mrs. Willie Hodgins in Antioch. This is a supplement for the convenience of those who find it difficult on account of limited travel to make frequent trips to the library.

There is also a collection at Ashley Heights. Mrs. D. H. Johnson will check books to anyone living in that part of the county.

The library board is anxious that all residents and visitors in the county get the greatest benefit from the number of good books in the library.

A number of new titles have just been received and are being prepared for circulation.

A total of 412 books were checked out to those who visited the library last week.

"Success comes in many guises in our life," say the home economists at the N. C. State College Extension Service.

Carbon Disulphide Controls Weevils

Weevils in dried beans and peas in storage will cause large losses this summer unless the insects are properly controlled by carbon disulphide, says J. Myron Maxwell, in charge of Extension Entomology at State College.

He reports that these insects develop while the beans and peas are in the field and continue to develop in the seeds after they are placed in storage. For treating, the beans and peas should be thoroughly dried and placed in an airtight container, using one-half teaspoonful of carbon disulphide to the gallon of seeds. The fumigating should be done when the temperature is above 70 degrees and the seeds should be left in the tightly closed container for from 24 to 36 hours.

Maxwell suggests that a tightly woven cloth be securely tied over the mouth of the container, while the seeds are being aired, to prevent other insects from entering. After airing for a few hours, place the seeds in tightly woven sacks for storage. He further suggests that the fumigation process be repeated at the first signs of insect presence and that the stored sacks be examined every month.

The entomologist warns that carbon disulphide is explosive and inflammable and that it should not be used around fires, or sparks, or near lighted tobacco.

Report On Early Tobacco Curings

Lumberton, July 20.—Good color and light texture is the general report on early tobacco curings in the Lumberton area, as farmers work overtime to offset the problems that have handicapped them throughout the season, according to the latest crop report issued by Jasper C. Hutto, supervisor of the Lumberton tobacco market.

"Irregular fields of tobacco is the order, with plants running from knee-high to head-high, making priming difficult," the report reads. "Curing also calls for all the experience and ingenuity of the grower, with tobacco full of sap as a result of heavy and constant rains."

Supervisor Hutto says that rains have brought on the greatest trouble in the last three weeks, and that the tobacco crop in the Lumberton area as a whole will be off from last year's banner yield of at least 10 per cent, with the yield in the territory close in to Lumberton off at least 20 per cent.

"Cessation of rain and an easing off of the clouds would greatly help, but days of blazing sunshine would do much damage. There is much fine tobacco, but the crop is too spotty to expect it to be up to normal."

GINNERS

Cotton ginner throughout North Carolina have been making repairs and adjustments in gin machinery. Since few ginner are being delayed because of a shortage of repair parts, reports Don F. Holler, of the N. C. State College Extension Service.

School Cannery

The School Cannery situated on the grounds of the Raeford Graded School and operated under the sponsorship of The Vocational Departments of the High School and the County Council of P. T. A. is doing splendid work now that they are operating full blast. Besides the canning done for the schools out of the school garden there have been 1600 quarts of fruits and vegetables canned for 60 different families. This service is open to any family in the county.

Those who wish to avail themselves of this service should get their vegetables prepared and to the Cannery before 1:00 o'clock each afternoon (Tuesdays and Thursdays). A nominal charge of 1c per can is made to defray expenses. Only quart cans can be used at present.

Mr. Dowd has secured a boiler and has the plant equipped with steam now. This will greatly facilitate the work.

We hope that everyone who can will make use of these facilities.

TOBACCO

Any farmer is eligible to vote in the tobacco referendum of July 24 who, as an owner, tenant, or sharecropper, is entitled to a share of the proceeds of the 1943 flue-cured tobacco crop.

LEGAL NOTICES

NOTICE

North Carolina, Hoke County. In the Superior Court.

Eunice McGhee Phinney vs. Guilford Phinney.

To Guilford Phinney, Defendant, or his Attorney:—

Take Notice: That on August 2, 1943, at the hour of ten o'clock A. M. before Honorable J. B. Cameron, C.

CLASSIFIED ADS

LOST—One male Collie puppy, four months old. White Feet, white ring around neck, white tip of tail, brown body. Reward for recovery or any information leading to recovery. Dr. R. A. Matheson.

S. C. Hoke County, North Carolina, at his office in Raeford, N. C., the deposition of Sarah B. Phinney, and Mrs. Nancy Young, taken in this cause, will be opened and passed upon by the Court.

This 17th day of July, 1943.

Eunice McGhee Phinney, Plaintiff,
By J. C. Pittman, Attorney.

DISSOLUTION OF CORPORATION

State of North Carolina
Department of State.
To All to Whom These Presents May Come—Greeting:

Whereas, It appears to my satisfaction, by duly authenticated record of the proceedings for the voluntary dissolution thereof by the unanimous consent of all the stockholders, deposited in my office, that the COLLINS DEPARTMENT STORE OF RAEFORD, N. C., INC., a corporation of this State, whose principal office is situated in the Town of Raeford, County of Hoke, State of North Carolina (W. A. Collins being the agent therein and in charge thereof, upon whom process may be served), has complied with the requirements of Chapter 22, Consolidated Statutes, entitled "Corporations," preliminary to the issuing of this Certificate of Dissolution:

Now Therefore, I, Thad Eure, Secretary of State of the State of North Carolina, do hereby certify that the said corporation did, on the 6th day of July, 1943, file in my office a duly executed and attested consent in writing to the dissolution of said corporation, executed by all the stockholders thereof, which said consent and the record of the proceedings aforesaid are now on file in my said office as provided by law.

In Testimony Whereof, I have hereto set my hand and affixed my official seal at Raleigh, this 6th day of July, A. D. 1943.

THAD EURE,
Secretary of State.

STATE OF NORTH CAROLINA,
COUNTY OF HOKE.

The foregoing certificate of Thad Eure, Secretary of State of the State of North Carolina is adjudged to be correct.

Let the Instrument, with the certificate be registered.

Witness my hand, this 13th day

of July, 1943.

J. B. CAMERON,
Clerk of the Superior Court.

ADMINISTRATOR'S NOTICE

The undersigned, having qualified as administrator of the estate of the late W. D. Smith of Hoke County, hereby gives notice to all persons indebted to said estate to come forward and make settlement with the undersigned immediately; and all persons having claims against said estate will present the claim duly verified to the undersigned, on or before the 25th day of June, 1944 or this notice will be pleaded in bar of their recovery.

This, June 25, 1943.
James Johnson, Administrator
of W. D. Smith, deceased.
4-10—Garvin.

ADMINISTRATRIX'S NOTICE

The undersigned, having qualified as administratrix of the estate of the late James Wiley Hewitt of Hoke County, hereby gives notice to all persons indebted to said estate to come forward and make settlement with the undersigned immediately; and all persons having claims against said estate will present the claim, duly verified, to the undersigned on or before the 30th day of June, 1944, or this notice will be pleaded in bar of their recovery. This June 30th, 1943.

MRS. JAMES W. HEWITT,
Administratrix of James Wiley Hewitt.
4-10

NOTICE OF TAX FORECLOSURE SALE

Pursuant to an order dated July 6, 1943, by the Clerk of Superior Court of Hoke County, N. C., I as commissioner will offer for sale at public auction at the courthouse door in Raeford, N. C., to the last and highest bidder for cash at 12 o'clock noon, on August 3rd, 1943, the following property, known as the Mary McAllister, deceased, estate:

In Antioch Township, Hoke County, N. C., and being the 10 acres devised by Ben McRae to his daughter, said Mary McAllister, as appears at page 44 of Book of Wills No. 1 in the office of Clerk of Superior Court of said County, to which reference is made for further details and description.

Posted July 6, 1943.

ARTHUR D. GORE,
Commissioner

Can You Picture
NORTH CAROLINA
without Highways?

A strange place it would be — this State of ours — if our splendid 60,436-mile network of improved highways suddenly ceased to exist.

A great many communities would be isolated. Others would find it infinitely more difficult to carry on even the most ordinary daily activities — with no trucks on the move, no cars or buses taking workers to war plants and farms, soldiers to camp and home on furlough, business travelers to nearby communities, children to school.

We North Carolinians are apt to take for granted the convenience of our excellent roads — but these highways didn't just grow. Building and maintaining them is a tremendous job and for achieving this successfully we can thank past and present administrations and particularly the North Carolina State Highway and Public Works Commission.

That isn't the whole story, however. Transforming these lifeless ribbons of concrete and macadam into live, active arteries of public transportation has been the accomplishment of the North Carolina Utilities Commission. They've labored hard and long to give our State a transportation system that compares favorably with any other in the country.

All of us who live and work and pay taxes in North Carolina can take pride in our share in this highway system.

As fellow citizens, the Greyhound Lines have made a very large contribution in the form of license, fuel and operating taxes — but we feel that our greatest service is in putting the highways to work for the benefit of all who must travel, making near neighbors and good neighbors of all the communities we serve throughout the State.
