

**GOOD FOLKS OF HOKE COUNTY -
LET'S DO A LITTLE MORE, PLEASE!**

Just between us, we're behind on our purchases of Bonds during this

3rd WAR LOAN

and we don't think you want to be in this sort of company. Hoke County has always met each quota for bonds, each quota for the Red Cross, each quota for the U S O --- in fact we can't remember any kind of war or humanitarian purpose in which we haven't met our obligations

In this drive we are asked to lend Uncle Sam

\$209,000

We have bought, through Wednesday, exactly

\$180,000

We are behind, as you can see, just

\$29,000

We have only until Saturday to buy enough more Bonds to reach our goal. Won't you dig a little deeper for those boys, our own boys, and those from other American homes who are out yonder on the battlefield giving their all, their lives if need be, that these things we have may retain their value and their use to us.

Won't you join us in buying another bond today - or not later than Saturday?
