

Three "Bears" Tackle Pulpwood Shortage

BRONKO NAGURSKI, former Gopher, now with Chicago Bears gridlers, cuts and hauls pulpwood for Minnesota and Ontario Paper Company during training. Running interference are his two sons, Bronko, Jr., 5, and Tony, 3. They've cut more than a cord for Victory this month. Have you?

Plummer-Moore And Neighbors To Cut Pulp

Route Two Folks Will Get Out Carol Wood In Victory Campaign.

J. H. Plummer and Pat Moore, of Route two, and a group of their neighbors are planning to get some 12 to 15 cords of wood out in the Victory Pulpwood Campaign honoring boys of their families who are in the service, according to Mr. Plummer.

On the Superior court jury this week, Mr. Plummer states that they expect to cut at least two cords for each man in their families who are in the armed forces. Mr. Moore has two grandsons serving with Uncle Sam and Mr. Plummer has two sons and three sons-in-law.

The wood is located on the Moore lands and Mr. Plummer will have charge of the cutting. It will be sold through the office of County Agent A. S. Knowles.

If others of their neighbors join them in the work it is planned that a like quantity will be cut for each service man represented by their families.

WMC Sets Up 26 Labor Markets In N. Carolina

Raleigh, Nov. 17.—The War Manpower Commission has established 26 labor market areas in North Carolina, in a grouping of counties to facilitate the handling of labor problems, Dr. J. S. Dorton, State WMC director announced.

Three of these areas have populations exceeding 300,000, while the other 24 have populations ranging from less than 50,000 to nearly 250,000. The Charlotte area has a population of 417,441 to lead the list, while the Durham-Raleigh area has 350,839 and the Winston-Salem-High Point-Greensboro area has 323,127 people. Southwestern areas, with the city or town designations, the area populations and the counties follow:

- Sanford—18,856—Lee, Moore
- Albemarle—48,995—Montgomery, Stanley
- Fayetteville—159,263—Cumberland, Harnett, Hoke, Sampson
- Goldsboro-Kinston—193,771—Duplin, Johnston, Wayne, Greene, Lenoir
- Lumberton—96,928—Bladen, Robeson
- Rockingham—85,274—Anson, Richmond, Scotland
- Wilmington—141,373—Brunswick, Columbus, New Hanover, Pender, Onslow (Camp Davis only)

Check On How Many Fighters You Feed

Now that a "Food Fight For Freedom" campaign is being inaugurated in every county in North Carolina, looking to maximum production and conservation of food in 1944, it is a good time for growers to check on what they did this year.

An interesting method of doing this is to compare the food sold from your farm with the amount which is consumed by a fighter in the armed services. For example, a farmer sold 37 hens weighing 8,190 pounds on foot. Since a hen cuts out about three-fourths net meat, the farmer had furnished 6,105 pounds of net meat with which to divide the 6,105 pounds of meat by 365 pounds, the amount one soldier will eat in a year, we find that the farmer furnished enough meat for about 17 soldiers for a whole year.

If you are selling eggs, just divide the number of eggs you sold this year by 365, because soldiers average about one egg a day. Every time you sell a case of eggs, you are sending another soldier, sailor, marine or airman enough eggs for 1944.

The dairyman will also be able to easily figure how many soldiers he is supplying with milk, because the average soldier gets about one pound of fresh milk a day, either fresh or as evaporated milk.

During the week the fighter consumes about 1 pound of butter, 5 pounds of potatoes, 5 pounds of fresh and canned vegetables, 1-2 pounds of tomatoes and citrus fruits, and 2 pounds of other fruits.

Farm Loan Offices Combined For Four Counties Nov. 1st

Cumberland, Hoke, Robeson and Scotland Unit Will Have Headquarters In Lumberton.

The farm loan associations of Cumberland, Lumberton, Robeson, and Scotland counties have been consolidated, effective October 31st, to form the Lumberton Farm Loan association, it has been announced.

J. C. Culbreth is to have charge of the Lumberton office and is secretary-treasurer of the new organization. A. H. White, of Maxton, is president, Harry W. Malloy, of Laurinburg is vice-president, and directors of the group are: E. C. Morgan, Fairmont, E. C. Ballance, St. Paul, and G. B. Rowland, Raeford. There will be local offices in Fayetteville and Laurinburg.

The consolidation was effected in order to form a stronger financial organization, reduce operating expenses, and provide better credit service to farmers in the territory served, which is Robeson, Cumberland, Hoke, and Scotland counties. The new association is a cooperative credit organization, owned and managed by its farmer-members through a board of directors, its principal purpose being to obtain farm mortgage loans for farmers.

"The association has an authorized capital of \$60,000, together with a substantial surplus and reserve. It has 375 loans outstanding aggregating

more than \$900,000 in the four counties served," Mr. Culbreth stated. "The new association has taken over the assets and liabilities of the absorbed agencies and all retired stockholders who have paid their loans in full to The Federal Land Bank of Columbia will receive cash for the par value of their stock in the association. Under this arrangement, retired stockholders of three of the consolidated associations will receive over \$9,000 for their stock investment. Retired stockholders of the other two consolidated associations have already received full par value for their stock," Mr. Culbreth stated.

Swaps Pillowcase Full Of Money For War Bonds

Westminster, S. C.—James Charles Moore of a mountain section came to town too late for a War Bond rally, but not too late to interest rally officials in the pillow case he was carrying. It held \$7,500 in bills. He got the war bonds.

ODT Will Enforce Truck Limitation Order Rigidly

Wilmington, Nov. 17.—The Wilmington district office of Defense Transportation will rigidly enforce the October 25th freeze order, by which ODT Officials are prohibited from allowing gasoline allotments for extension of truck routes or creation of new routes, it was announced today by G. T. Musselman, district ODT manager.

Mr. Musselman explained that three amendments to General ODT Orders, which became effective October 25th, make it impossible for a trucker to operate in a territory or over any route over which he did not operate prior to the effective date of the order. This, he explained, affects both persons going into new business and persons wishing to extend or change their present routes or territories.

We recommend that persons planning to buy motor equipment for new or extended operations consult ODT Officials prior to making such purchases.

THE POCKETBOOK OF KNOWLEDGE

**Cabbage Seed**  
Carolina Plant Farms at Bethel is planning to save stalks from 18 acres of fall cabbage in Tyrrell County for seed, reports J. Y. Lassiter, State College.

**Bees**  
A ten-pound colony of bees needs 60 pounds of honey and 4 or 5 combs of pollen stored in the hive to carry it through the winter. A soldier eats six times his weight of food during the winter, also.

**Iron**  
Food nutritionists say that a practical way of making sure that you get enough iron is to eat a wide variety of foods.

About 2,790,000 cases of canned peaches, peas, and tomato catsup have been released for civilian consumption, says the WFA.

SPECIAL ATTENTION MR. FARMER! FERTILIZERS

We will be in a position to start delivering your fertilizer requirements for the 1943-44 Season, beginning OCTOBER 15th to NOVEMBER 1st, 1943.

To insure your having your fertilizers when you need them it is necessary that you start taking in your fertilizers not later than OCT. 15th to NOV. 1st. This is due to the fact that the LABOR SITUATION is even now EXTREMELY CRITICAL and daily becoming more CRITICAL. Also, deliveries will have to be made with inadequate transportation facilities.

It is true that for the duration, you as well as ourselves are compelled to operate our business under the most unusual conditions, which will work a hardship on all of us. In your case it means that you will have to take in your fertilizers well in advance of the time that you will actually need them, to insure your having them on hand when you will need them. To whip the Axis and bring the War to a quick ending it is necessary that we all work together, and give and take when and where it is necessary.

TO YOU WHO ANTICIPATE FARMING DURING 1944: For reasons other than those outlined here, a bird in hand during October, November and December will be worth much more to you than what birds you may have in hand after that time.

Your small grain sowed this fall should have ample fertilizer under it, in addition to being dressed with Nitrogen next Spring. We can furnish your requirements for this also.

Make your plans now—See us or our Agents, and let us start delivering your fertilizers not later than October 15th to November 1st.

Buy DIXIE BRAND FERTILIZERS and grow PROFITABLE CROPS.

DIXIE GUANO CO. Telephone Nos. 63, 65, and 66 LAURINBURG, N. C. We Manufacture Quality Fertilizers To Suit Your Needs.

From where I sit... by Joe Marsh

"Your outfit looked mighty fine in the parade," I told Ed Carcy, our fire chief. "Everything polished within an inch of its life, and the men pert and snappy!" "That's how it should be," said Ed. "We have Thursday turnout inspections... and surprise inspections in between!" That sort of supervision is well repaid in the efficiency of our town's fire department. It's like the way the brewers do in this state. They watch all the time, not because they're looking for things to be wrong but...well, just an ounce of prevention!

The brewers' self-regulation program is just a form of vigilance that protects everybody. Like the fire department's inspections, it keeps things the way they ought to be. From where I sit, most people approve of the way the brewers run things these days.
