"Mud Slinging" Born Of Desperation Says Major Gregg Cherry

FAYETTEVILLE, N. C., May 20-In his first public reference to the opposition in the current gubernatorial campaign, R. Gregg Cherry of Gastonia, Democratic candidate for governor, said here last night that the type of campaign being waged by Ralph McDonald "is horn of des-peration and will become more des-

made upon me, nor of the whispering campaign which has been going on over the state, nor of the suggestions contained in untruthful statements.

"This attack is not unexpected, school's glee club, under the direction of Miss Buena Baldwin, composing unsuccessfully in 1936. It is born of the choir, On Tuesday morning at 10:30 the comes more desperate and hopeless, the more insidious the attacks will

"The people of North Carolina, however, do not choose a governor on any such basis x x x. They are

interested in a man's character and his proven ability to handle the matters of State," he said.

Turning to a discussion of returning war veterans, Cherry said that any program set up in North Carowally will be presented by the class of will be presented by the class of the several schools of the county will present a number on the program.

On Tuesday evening at 8:30 a class night play, "Isle of Our Dreams" will be presented by the class of the several schools of the several ing war veterans, Cherry said that any program set up in North Caro-In a for handling veteran's problems would depend largely on what provisions are made by the Federal Government.

"It is impossible to chart in detail at this time a program which will meet every need of veterans because their needs will not be definitely nown until the war ends and they are ving with us again," he asserted.

Earlier in the afternoon he addres-ed a gathering of his supporters at Forwin, with delegations from neary Sampson and Harnett Joining with their neighbors of upper Cumberland. Mr. Cherry was presented here by J. M. Wilson, president of the High-land Lumber company and active

Election Interest On Increase As **Primary Nears**

Two County Races Are Little Discussed; Governor's Race Expected To Draw Big Vote

(Staff Comment As following day, Saturday May 27, percaches, what appeared at first to a day of little interest throughout the State may are a large part of North Carolina's electorate parazing to the polls to exercise their right in the choice of county and state of-

fice holders. In Hoke county there are only two ontested races. W. W. Roberts, incumbent, is being strongly contested for the office of Register of Deeds by W. S. Crawley of the Arabia com-

And for county commissioner there are six candidates for the five-man commission. N. H. G. Balfour, Hec-tor McNeill and E. R. Pickler are seeking re-nomination to the board and new candidates this year for seats on the board are T. D. Potter, F. Knox Watson and F. A. Monroe.

Campaigns for these offices have been quiet with none of the candi-dates making any great effort, acording to observers

Center of interest is the determined campaign for the gubernatorial non-mation between Major R. Gregg Cherry and Dr. Ralph McDonald This campaign started out quietly enough early in the spring with Major Cherry announcing on a plat-form that called for conservative progress in the various state departments, with due consideration for those things to which the North Carolina Democrats hold closest to their col-lective hearts; their achools, their colleges, their health program, their roads, with ample protection to the increasing war-born surplus funds. Mr. Cherry, a World War One veteran, has centered much of his prom-ises for the future to the welfare

of the returning veterans of this war.
Mr. McDonald, laying personal
claims to most all of the progressive
measures that have been accorded the state school system in the past half century and promising for greater things for the schools, the tax-payers and everybody, all paid for by a nebulous sort of financial system that would (at first) do away with the sales tax and also not place the tax back on real estate.

In recent weeks he has had to discard the no-sales tax platform in order to promise greater state expenditures for other of his New-Deal-ish reforms. Too, after losing many of his earliest supporters on aband-oning anti-sales-tax plan, McDonald supporters resorted to attacks on his opposition which carried considerable weight until it was discovered that most of them were based on distorted information, the truth of which placed a new light and one more favorable to Mr. Cherry than had been created at first for Mr. McDonald.

Mr. Cherry has made his campaign entirely on the basis of his record of many years service in public of-fice and in only one speech throughout his campaign has he referred to Mr. McDonaid. Then he stated mereby that these attacks had been "born of desparation." And so it appears to us. Mr. McDonald's most popular plank was that of the abolition of the Sales tax. When he found that he could not expect to operate the government of this state without it he ducked out on the biggest part of his supporters, and since has waged the typical battle of an "out" trying to get "in."

Though he has denied that the CIO

has paid money to him for campaign expenses, it is not denied that the Political Action Committee of that Union is spending money, and a lot of it, in North Carolina during this campaign. There is not a person campaign. There is not a person who would say that the CIO is inter-ested in seeing Mr. Cherry —the conservative -elected to the governorhip, when such a candidate, so susceptible to the CIO's left-wing ac-

for that office.

In the matter of policy, it is quite true that the Democrats of North Carolina are quite sufficiently fed-up with the practices of the bureaucratic administration in Washington and the majority of the people cer-tainly want no imitation of the New Deal set up in North Carolina. And, while the State Democratic convention has placed its official endorse-ment on Mr. Roosevelt for a fourth term, it was with considerable ton-gue-swallowing that this action was taken. In fact, that action was also born of "desparation", for it is only with Roosevelt that the Democrats can hope to win the general election this fall, even if the Republicans let R. R. McCormick of Chicago pick out their candidate. For North Carolina's Washington delegation to have any influence in the Congress, the ad-(Continued on page eight)

PLANE PICKS UP GLIDER ON THE FLY.—Photo shows a C-47 plane zooming low over the field in making a "snatch pickup" of a glider, spectacular development in aerial warfare. This picture was made at Laurinburg-Maxton Army Air Base, Maxton, N. C., installation of the First Troop Carrier Command.

The glider pickup is the Troop Carrier Command equivalent of the manner in which mail is snatched from hooks fast moving mail trains. Using nylon tow ropes, the C-47, traveling at more than 100 miles an hour, lowers its pick-up hook, snatches the tow rope from supporting uprights, and continues on with the glider in tow. The glider becomes airborne in a remarkably short run.
