### MISS CURRIE IS WEDDED TO CHATHAM R. CHANEY

Miss Eunice Catherine Currie became the bride of Chatham Ray Chaney, Friday evening at eight-thirty o'clock, in a ceremony of beauty and charm at the home of her sister, Mrs. C. C. Burris of Wingate. The Rev. C. C. Burris officiated using the ring ceremony. The vows were spoken in the living room before a background of ivy and fern. Vases of white shasta daisies, snap dragons, and gypsophylla, flanked by white tapers, graced the altar.

Miss Dina Dominguez, pianist, rendered a program of nuptial music. Miss Mary Ben Burris, niece of the bride sang, "Because." The wedding march from "Lohengrin" was used for the processional.

The bride and groom entered un-attended. Only immediate members of both families were present.

The bride is the daughter of the late Mr. and Mrs. H. C. Currie of Raeford. She attended W. C. U. N. C., and was graduated from Cullowhee College. For the past several years she has been a successful teacher in the Union county public schools.

# Swing low Sweet Kilowatt!

The cost of living has gone up like this—

**BUT** the price of electricity has come down like this!

**NOBODY** needs to tell you that the cost of living has been soaring toward high C.

But maybe you do need a reminder that the cost of electricity has been sliding deep down.

If yours is an average household, you're getting over twice as much electricity for your money today as you did 15 years ago. And 1944 government figures show that the

average price has continued to ease off a little—even since war began. That fact ought to be music to your ears!

Getting prices down and keeping them down is one of the electric industry's greatest achievements.

It took a lot of planning, perspiring and practical business management to do this job in wartime. All our people played a part.

## Nation Faces It's Greatest Coal Shortage In '44

"New York, May 30 (AP)—Dr. C. J. Potter, deputy solid fuels administrator for war said today that the nation has only a 30 day supply of coal above ground and he predicted for the coming winter the greatest coal shortage this country ever faced. We are up against the stark reality of a shortage that can't be averted, Dr. Potter said."

Under government regulations we cannot deliver to anyone more than three-fourths of their annual requirements less the amount they had on hand April 1st. If you used eight tons last season and had two tons on hand April 1st, we can deliver you only four tons.

We have some coal on hand, not as much as we want, but as much as we can get. As long as we have it we can deliver you on the above basis. No orders accepted for later delivery.
