### Prices For Eggs Set High Record

Raleigh, October 1.—Prices received by farmers for eggs in the Nation in August averaged 40.8 cents per dozen, the highest for the month since 1920, compared with 33.9 a year ago and 23.6 cents for the 10-year (1934-43) average, Curtis Tarleton, statistician with the N. C. Department of Agriculture, reports.

Prices advanced 2.9 cents per dozen during the month ending August 15, compared with 1.8 cents last year and a 10-year average of 1.7 cents. Shell egg markets were very firm at the beginning of August, with supplies scarce at all levels of trading. This situation gradually gave way to increasing easiness until at the close of the month only the finest quality large fresh eggs brought OPA ceiling prices. Lower qualities had dropped well below ceiling levels and under-grades, cnecks, and dirties were difficult to move.

Tarleton said that chicken prices averaged 28.6 cents per pound live weight on August 15, the highest price for the month in 36 years of record, compared with 24.1 cents a year ago and 16.0 cents for the 10-year average. Marketings of live and dressed poultry through regular channels increased seasonally during August with a sharp upturn toward the close of the month, following termination of War Food Orders 142 and 125 and the suspension of WFO 119. Poultry prices continued at ceiling levels during the month but ample supplies and lower prices are generally anticipated for the near future. Turkey prices in mid-August were the highest for the month in 12 years of record—33.8 cents per pound live weight, compared with 30.7 cents a year ago and an average of 16.1 cents.

The Poultry Department at State College has a turkey family of eight daughters that shows no broodiness. The average number of eggs per bird up to September 1 was 140.4 eggs, and five hens were laying.

### Investigate before buying Land

Some people are entirely too careless when it comes to buying real estate. They buy without having the title investigated to see that it is clear of mortgages, judgments and taxes. In most cases it is money well spent to hire a good lawyer and have him make a thorough examination of the records and see that your title is good before you make the purchase. Records should be traced back and see that no taxes, judgments and mortgages are on record against a prior owner as they are frequently the ones that cause trouble.

As far as taxes are concerned, I will be glad to investigate and give the purchaser a certificate that all taxes are paid or a statement of the amount due.

J. A. McGOOGAN—County Auditor

Reaves Drug Store

### Mr. Tobacco Farmer . . .

Tobacco is too costly a crop to waste it after it has been grown. Many farmers have lost a large part of their crop this year because of barn room and failure to install Modern Curing Equipment.

### Plan Now For Your 1946 Crop!

The "Cure-All" oil-burning tobacco curer is the most efficient curing unit on the market today, and is giving highly satisfactory service to the many farmers who were fortunate in securing "Cure-All" units in the past several years.

If you want a money-saving and money-making curing unit for your barns next season, Investigate Now! We are booking orders for delivery next season and will be glad to have you place your order with us anytime between August 15 and September 29.
