Attend Chevrolet Preview

C. L. Thomas and Younger Snead, local Chevrolet dealers, returned from Charlotte this week where they attended a preview of the new 1946 Chevrolet at the company's zone headquarters.

They were reluctant to discuss the mechanical and style features of the new car, but by their eager attitude it was apparent that they expected the formal announcement and public showing of the car to be at an early date.

Throughout the war period, car owners have been forced to get along with their old automobiles. At the same time dealers have expended every effort to service these cars, and to keep them rolling for the duration.

Mr. Thomas and Mr. Snead stressed car care, with the warning that motorists should not expect the 1946 Chevrolet to be available in great quantities immediately. The supply to dealers will increase as production in the Chevrolet plants permits.
