Controls Off All Airplane Travel And Construction

WASHINGTON, Oct. 15.—All controls came off construction and airplane travel today as the nation entered its third month of peace.

Lifting of WPB's ban on civilian construction was expected to stimulate business expansion and provide a new source of jobs for the country's rising total of unemployed.

It came as reconversion officials voiced general satisfaction with the progress thus far made while cautioning at the same time that the upsurge of labor strife would delay the back-to-normal process.

From official and unofficial quarters came these forecasts of future trends and actions:

Wages—Labor wants a 30 per cent increase to offset loss of overtime. Official sentiment is growing for federal approval of a rise of perhaps 15 per cent, but this plan so far lacks White House blessing.

Prices—such a wage boost necessarily would increase price levels by 3 or 4 per cent. Meantime OPA is holding the line, insisting on 1942 retail prices for most goods coming back on the market.

Strikes—failure to date in settling critical oil and coal emergencies has spurred demands for some peacetime dispute-handling machinery. This could mean revival of the dying war labor board or creation of a new agency to handle test cases and fix a formula for peaceful settlements. Indications are that unions will request 600 strike votes in October, double last month's record total. The stricken industries include automobiles, lumber, shipping and trucking.

Egg prices are expected to decline more than seasonally after November, and to be at or near support levels during most of the winter and spring, says BAE.

Barrett Promotes Carolinas Manager

The Barrett Division, Allied Chemical & Dye Corporation, announces the promotion of Clarence J. Ball, formerly Sales Manager for the Virginia-North Carolina district, to the position of Sales Manager, Southern District, which territory includes the entire South. Mr. Ball will assume the duties which were formerly un-

der the supervision of Roy S. Marsden who has been appointed Assistant Manager of the Sales Agency Department, with headquarters in New York.

Mr. Ball has been associated with Barrett for a period of ten years and has been engaged in the sale and promotion of "Arcadian," the American Nitrate of Soda, manufactured at Hopewell, Va., and promotion of other Barrett nitrogen products for agricultural consumption in the Virginia-North Carolina District. Mr. Ball will assume the duties which were formerly un-

NEW B. F. Goodrich PASSENGER TIRE OUTWEARS PREWAR TIRES!

New Passenger Car Tire with Safer-driving, Longer-mileage features

New, better Synthetic Rubber
Developed by B.F. Goodrich—it's far better than ordinary synthetic rubber. Helps the new tire run cooler, wear better. It resists cracking, bruising and damage from accidents better too.

New, "Road Level" Tread
35% stronger tire body makes possible tread with a flatter contour—its whole width touches the road. More rubber on the road to share the wear—evenly. The tread design has hundreds of skid-resisting curves to grip—and stop quickly!

16,800,000 Test Miles
Has more test background than any previous B. F. Goodrich tire. Extensive laboratory tests plus 16,800,000 miles of actual road tests—on taxi fleets, police cars, and the B. F. Goodrich test fleet—proved it outwears prewar, natural rubber tires!

3 years' EXTRA synthetic tire experience
Three full years before any other manufacturer, B. F. Goodrich sold tires made with synthetic rubber to American motorists. This extra store of experience shows up in extra mileage... extra safety... extra value.
