Who Gets Off Easiest— Men or Women?

Maybe you saw that poll on who has the easiest life—men or women? Of course, the men voted that the women did, and the women vice versa.

It would be the same in our town —take any family. Thad Phibbs envies his Missus spending the day at home, with no hot office to attend to. And Sue envies Thad his luncheons with the boys; and his evening glass of beer with friends (while she cleans up the dishes in the kitchen).

Of course, none of it goes very

deep. Thad knows way deep down that the Missus has plenty of work running a house; and Sue knows Thad's friendly glass of beer is well-deserved relaxation after a long hard day's work.

From where I sit, most husbands and wives may grumble now and then — but they know in their hearts it's a case of live and let live, give and take, that comes out pretty even in the end.

The next few weeks is a good time to apply lime to pasture land and on land that will be seeded to permanent pasture in February. The land should be broke or disked before spreading the lime. The fertilizer can be applied just before seeding time.

Farm machinery should be painted, greased, and stored under a shed for winter. Be sure that all moving parts are greased.
