**MORE ABOUT Missionary Speaks**

to China himself for quite some time and after the war was one of a committee sent to China by the Southern Presbyterian church to assess the damage to properties of the church there during the war.

He spoke at some length on the things that make Chiang Kai Chek the only leader of the Nationalist government of China now and the only one likely in the near future. He also mentioned the fact that probably the only institution in China which had withstood the ravages of the many years of civil war was the Christian church. His discussion of the basic differences between Chiang's government and the Chinese Communists was most interesting.

**JOINS NEWSPAPER STAFF**

George B. Weaver, Raeford native more recently of Wallace, N. C., has joined the staff of The Stanley News & Press at Albemarle. Weaver, who served in the army in the Pacific during the war, has been editor of the Wallace Enterprise for the past year.

**Planning Toward A New Church In Five Points Area**

About two weeks ago the people in and around Five Points, in the upper end of Hoke County decided that they would do something about establishing a church in their community. From the State Sanatorium to Wagram and Red Springs has been and unchurched area for many years, Shiloh, Bowmore and Centenary churches having been moved. With a petition of more than one hundred names, from the Five Points community, Mr. Maness, of the Raeford Methodist charge, has been asked to assist them in establishing a Methodist church. Not that all those people are Methodist, or will become Methodist. They do desire to see a Methodist Church established in their midst.

The North Carolina Conference of the Methodist Church, has known for some time that this is an unchurched rural area, and that something should be done about it. Now that the request for guidance and help has come from the community, the next step is to find out how many people will give themselves to actual membership in the organization, or would prefer the new church as their choice. When this information is obtained, and district authorities deem it wise to establish a church, it will be done. However, even then it will begin in a temporary house, awaiting the development of church membership an community interests. When this develops in a way to justify, then the Duke Endowment will assist the local community in building a permanent house of worship to serve their needs for years to come.

**PTA To Meet Monday Night**

The regular meeting of the Hoke-Raeford Parent Teacher Association will be held Monday night at 8 o'clock in the high school auditorium. The topic of the program will be a summary of "How Firm a Foundation" and Mrs. R. A. Matheson will be in charge.

Mrs. McGougan of the Home Economics Department will show a moving picture which she wishes every parent to see.

There will also be a representative from the Chapel Hill Hospitalization Association present to discuss with all parents present the hospitalization insurance policy available to families.

All parents in the county are urged to attend this meeting.

**IT PAYS TO ADVERTISE IN THE NEWS-JOURNAL**

*Your Home*  
By Frances Ainsworth

The other morning one of my neighbors dropped in for coffee. While we were chatting, she asked me if I had seen the article in the paper regarding a law requiring enrichment of white flour, bread and rolls. Twenty states already have passed mandatory laws. The article pointed out that the need for such laws is greater since the war-time food order requiring enrichment of white bread and rolls was revoked last October. My neighbor asked me if I felt that such a law was needed. Well, my answer was "yes" definitely—and I told her about my recent visit to a Baking Laboratory.

At the laboratory, I watched one of the women technicians test enriched flour to determine the thiamin content . . . and as I watched her she told me that enriched bread contains not only the famous B1 vitamin, but riboflavin, niacin and iron as well. I was interested to learn that many bakeries in our state (as well as others) voluntarily enrich their products without a law. The technician explained that enriched flour may be used—or the baker may add vitamins and iron to his dough mix.

The use of enriched flour certainly seemed the simpler method to me—and my neighbor agreed. But the main thing is the added food nutrition. I'm sure every mother of growing children will agree that we should obtain a food enrichment law in every state. For after all, the health of our children—and ourselves—is our main concern, isn't it?

**MORE ABOUT Farm Notes**

July 31, 1947, producers will not be entitled to order the sale of the cotton.

The average 1946 crop loan rate for 15/16 inch Middling cotton, gross weight, was 24.38 cents per pound.

**MORE ABOUT Poole's Medley**

That kept me from being ready to vote for or against every bill before it was even accepted by the committee.

You remember that Truman was nominated in Wallace's place at the last Democratic conven-

tion, but the President is not to blame for all that.

With Communism, Wallace and "free speech, we may get into trouble, I reckon a man may express his choice for a man, but he must say it nicely.

Henry A. Wallace, once Vice President went to Europe to tell an untruth.

A citizen has no right to be disrespectful to the head of his government at home much less to go abroad to mistreat him.

"Do unto others as you would have them do unto you is good practice and is always a safe course to take."

It is the barest possibility that Wallace's speech may perform the unexpected, and he will get what's coming to him.

The City of Charlotte is holding a special election to vote on themselves 25 cents tax on the

\$100 to produce super citizens if possible.

And they vote on licensing liquor in Charlotte June 7th, and I hope the drys win.

The last Legislature said and did more about liquor than any former General Assembly.

We have not had a wet year since 1929, and we hope this year will not be too wet for crops. The world needs food.

But we are not thankful to a kind Providence for bountiful supplies, and peace and safety at home. Do not be jittery till something drops.

For years and years eggs sold for not higher than 10 cents a dozen, except about Christmas they brought 20 cents. Now we fuss about forty cent eggs.

I do not believe any shoat is worth 20 cents a pound on foot, nor forty cents cured out.

**Commendable Action**

We wish to commend the town police department—Chief McQuage, that is—for the much-needed improvements in the parking spaces on Main street which were effected last week. Prior to their repainting some of them were narrower than others and the narrower ones were undoubtedly the cause of some fender scratches in the past, not to mention a good deal of wriggling and squirming by some of our larger citizens getting in and out of their cars. These will not need to occur now that the spaces are wide enough.

Let's all show our appreciation by parking straight in the new lines.

**Notice of Registration and Town Election**

The Town Election will be held in the Town Hall Monday, May 5th and the registration books will be open April 19 and April 26 until 9 P. M.

N. L. McFadyen, Mayor.
