Poole's Medley

BY D. SCOTT POOLE

That prices will not be any lower through next year is a late prediction. Josh Billings said a mule could live on an occasional chance at something to eat. We may have to live like that.

Much is being published about the likelihood of all life on this earth being wiped out, humanity, animals and everything. If the Lord God omnipotent has so decreed, nothing can prevent it. "So have faith in God and wait."

Time was when I wanted to see snow come. We children went wild with glee when snow began falling. We have had but little snow since 1927. I believe it was in the winter of 1925-26 when we had zero weather last, but we have had some severe weather, though very little snow.

The advantage of times like the present is that a man feels more like he is doing something, even if he is not doing anything but handling money.

The last year I lived at Jackson Springs I chipped and dipped 6,000 turpentine boxes and cultivated 17 acres of corn and truck, and I cleared less than \$100.

The news again reported strong winds striking the Florida peninsula full length. I have never heard of more storms in one year.

And, a friend remarked that we had thunderstorms every month of this year, except January and February. There used to be thunder clouds the first days of January, but we have missed that for the past twenty-five years.

The "People's Forum" is an interesting section of the newspapers in these unusual times. They represent all sides of all questions.

The friends of liquor and Satan are determined to put Liquor Stores all over DRY NORTH CAROLINA. North Carolina voted three to one against Repeal in 1933. Hoke voted four to one against repeal in that election.

Tobacco allotments should be reduced equally upon a percentage basis as, he who has 3 acres, plant 2, and he who has 100 acres, plant 66 2/3. That is in proportion.

Down in the eastern section of the state, it is reported big farmers say we must take care of our tenants. If one of those have 199 acre allotment and he has 20-50 50 sharecroppers, 5 acres each, he gets one-half of those 20 crops of 5 acres each.

It is a great good fortune, if a man can see his neighbor's needs as plainly as he sees his own. If YOU, NEIGHBOR, can see your neighbor's needs as you see your own, you are fortunate.

The man who is guilty of committing a crime no brute has ever committed is guilty of a crime which places him in a class of beings lower than the lowest brutes known. There should be a special law to deal with such cases. Remove the cause, and lynching will cease.

We learn that about one-fifth the people in Russia are Communists. They just step out and boss the rank and file of the people. There have been bossy folks all along.

The best government is where the most people make Bible doctrine the rule of life. Honestly, those who follow most nearly the Golden Rule are happiest.

President Truman is asking for Government control of food stuff. The editors are clamoring for reductions in production, but all I see needed is STOP GAMBLING, stop all future buying—just sell what they produce.

If a cow gets all the water she wants, she will give 8 to 15 per cent more milk.

MALE HELP WANTED
 Reliable man with car wanted to call on farmers in Hoke County. Wonderful opportunity. \$15 to \$20 in a day. No experience or capital required. Permanent. Write to-day.
 McNess Company
 Dept. C, Candler Bldg., Baltimore 2, Md.

PRESCRIPTIONS
 Hardy a month goes by during which some member of the family doesn't have a cold or upset stomach, earache or minor injury. Keep them all minor by consulting your physician first; and by having us fill his prescription in our fine pharmacy department.
HOWELL DRUG STORE

A MAN OF THE WORLD

Yes, and we mean in an important sense, for the eyes of the World are upon him.
 He is the American farmer.
 He, alone, among the farmers of the major nations, is able to feed his own countrymen and hungry millions in other lands. Last year he sent 20 million tons of food abroad while maintaining our own diet level — already the best in the world.
 This high production efficiency—achieved by the persistent application of new tools and scientific discoveries—must be main-

tained in months to come. For food is still fighting for peace.
 And so is steel.
 Steel companies, which already have set new peacetime production records, are spending more than one billion dollars on improvements and expansion to meet the needs of reconstruction abroad and our expanding economy at home.
 Through steel and farm production lies a great source of American strength. And only the strong can hope to keep the peace.
