Poole's Medley

BY D. SCOTT POOLE

The world is in a state of unrest, and all the nations are more or less unsettled and uneasy. Honesty, sobriety and fair dealing, with firmness is the best remedy for present conditions.

In a community where everybody is friendly and desirous of peace and happiness and where all the people want peace with their Creator and all the world, it is hard to understand what is the cause of this unrest and disposition to riot.

"I will both lay me down in peace, and sleep, for Thou, Lord, only makest me dwell in safety."

One of the strangest things of the present time is why the hens, as a rule, have not laid this fall. I have never known so few eggs at this time of year.

It is believed that we will have snow this winter, as we have missed for several winters. But you never can tell.

This is hog killing time, and a good time, for hog killing it is. The moon is just right, too.

The two foot snow that fell the day before Christmas, 1875, did not thaw in the least for two weeks or more, for the ground was hard frozen when it fell, and the snow covered the ground until after the middle of the next March.

I think snow helps to thin down the insects that prey upon the vegetables, and in fact, all crops. And the snows "fallow" the ground.

Mecklenburg liquor stores sold something over three quarters of a million dollars worth of liquor their first month. No telling how much harm that liquor did. Mecklenburg is the largest county in population in the state and it

should engage in better business than selling liquor.

That thing, Wallace, is making speeches to mixed multitudes here and there throughout the country. He is at heart a Russian.

We desire justice and equal rights for all humanity, but simple justice does not require that all sit on one long bench.

I think I serve men with whom I do not eat and sleep, equally as well as those with whom I am more intimate. Service is not in intimacy, but in deeds of kindness willingly bestowed.

I remember well those hot wrangles of the 1840's, when Sumner was trying to do the unreasonable and unprofitable.

Accidents are becoming more frequent. Riding on the highways is more destructive to human life than war, famine or pestilence.

Knowledge may be graded as essential or nonessential. To know those things which are confronting us daily is essential. Old folks used to know when the moon and certain stars passed in the firmament.

The Arabs now threaten a "Holy War" because of the division of Palestine. That is how all Europe is, they go with their backs up, like shoters bantering each other for a fight.

It is not often a killing frost stays off to so late a date, but the leaves of the trees died of old age this fall. The seeding down of small grain has been belated because of rainy weather. However, there is time enough yet to sow and make a good crop. I have known January planted wheat to be good.

Highway accidents have taken the lives of two Hoke County men within a few days. And these were good, industrious men, and young, strong soldiers in the last World War. It was a sad experience for the people of Hoke County.

The Ishmaelites are said to be descendants of Ishmael, son of Hagar, an Egyptian woman, by Abraham. They are Mohammedans. This is not a religion of love as is Christianity.

When REA was established 12 years ago, 10 per cent of the farms had electricity as compared to 61 per cent receiving electric service today.
