## Poole's Medley

BY D. SCOTT POOLE

In a recent issue of the Saturday Evening Post, a friend and associate of Henry Wallace, who was formerly in agreement, gives his reasons why he cannot vote for him. He thinks, just as this writer, that the Wallace who went to Europe is not the same Wallace who returned from Europe. I thought that as soon as I read excerpts from his speeches.

"There is true dignity in labor, and no true dignity without it". I know people who thought it was a credit to them to be able to live without having to work, but they were mistaken about that.

The Church is awaking as never before since my day, and the wicked were never so bold. The atheists are asking to be allowed to spread wickedness as never before.

The Church is surprised at the spread of Communism. Atheism is the spore of Communism. It is only a step from atheism to Communism.

War has done the world lots of harm. These last two World Wars have just about bankrupted the whole world. Such waste.

We ask you all, readers, to watch and see if the last crop report is not less than it is now. Manufacturers seem to desire to make their popular profit, even if the world makes nothing.

Selfishness is the mark of the world, not religion. The mark of Christianity is to love your neighbor as thyself.

Folks started to eating one egg at a meal during World War I, and have been eating only one egg at a meal since, or that is the average.

The sun is the source of light for this world, and it is said that if the light of the sun were shut out

for two hours, this world would be a frozen, lifeless globe. Light is the spire of life.

The building of the county building in Raeford, and the building of sandclay roads and schools relieved the financial situation in Hoke County in large measure at that time.

Those men from Randolph County who killed Sergeant Mott escaped the electric chair, but they were guilty and deserved electrocution. That was the second time Hoke County could not get a jury from her own citizens.

Some folks are saying now they will have to drink blockade beer. No, they do not have to do anything of the sort. Let Fayetteville do it.

It is 'opossum time, and those things are out hunting frying size chickens in this town. They are fit to eat this time of the year.

The Young Democrats have pledged to vote a "straight Democratic ticket". If they do not begin to vote until they have passed the Presidential box, will that be straight?

The Democrats of the South have stood by the Democratic party through thick and thin, for eighty years, and would now if they felt like it. They will in their own way.

The sale of wine and beer was placed upon the county without a vote of the people. North Carolina voted two to one against repeal. Hoke County voted three to one against repeal. Only seventy per cent of the people of the United States voted in the election that repealed the Eighteenth Amendment of the Constitution of the United States. The majority of the people in this country are against the sale of intoxicants.
