

MORE ABOUT SCHOOL NEWS

will be notified as quickly as word is received from Raleigh, whether the requests are granted or not. Transportation this year, barring seriously bad weather conditions should be even better than last year.

Wednesday all schools held local faculty meetings and spent the

remainder of the day preparing for the opening.

Tuesday more than one-half carload pears was received from the Federal Government for use in the school lunchrooms. Part of these pears will be canned in the Raeford cannery for use in the colored schools. This is the first shipment of the USOA commodities for this school year. We expect to receive potatoes, cabbage, dried and canned fruits, canned tomatoes, cheese, dried milk, dried eggs, etc. at a later date.

It is hoped that a large number of parents attended the opening of the various schools this morning.

We're Ginning Now AT OAKDALE

With latest type Continental Gin Equipment to give our customers finer samples, cleaner cotton than ever before. This year, that means money in your pocket.

OUR EQUIPMENT INCLUDES

Two-Stage Drying, where advantages offered by each of two different drying methods are combined, with the driers receiving their heat from two separate oil-fired furnaces of latest design.

Two Overhead Bur Machines and Two Impact Cleaners. An overhead bur machine and an impact cleaner are a recognized combination unexcelled for preparation of all kinds of rough cotton. We have doubled this combination by installing two each of these efficient machines.

4-X Huller-Cleaner-Feeders. These new machines, commonly called "extractors," are especially designed where maximum extracting and cleaning are desired.

New Type Continental Lint Cleaners. These are absolutely new to this territory, and are a remarkable development for the cleaning of lint cotton after ginning. There is a lint cleaner for each of our four gin stands.

ALL THIS AT THE SAME PRICE FOR GINNING
