Is the A & P a Menace to Small Business?

Is small business going to the dogs because of chain stores underselling them? Almost every day someone publicly yells about the plight of small business and usually blames the chain stores. Thursday of last week the justice department filed a suit to break up the A & P, oldest and biggest chain store in America, and one that we know here in Raeford, having had one for a matter of two decades or more.

We believe the presence of chain stores in Raeford has been helpful. Since the coming of A & P and Pender's all leading grocery stores in Raeford are better places to buy food and, we believe, they are all as a result more profitable than in the days when their operation was not spurred on to greater efficiency by competition.

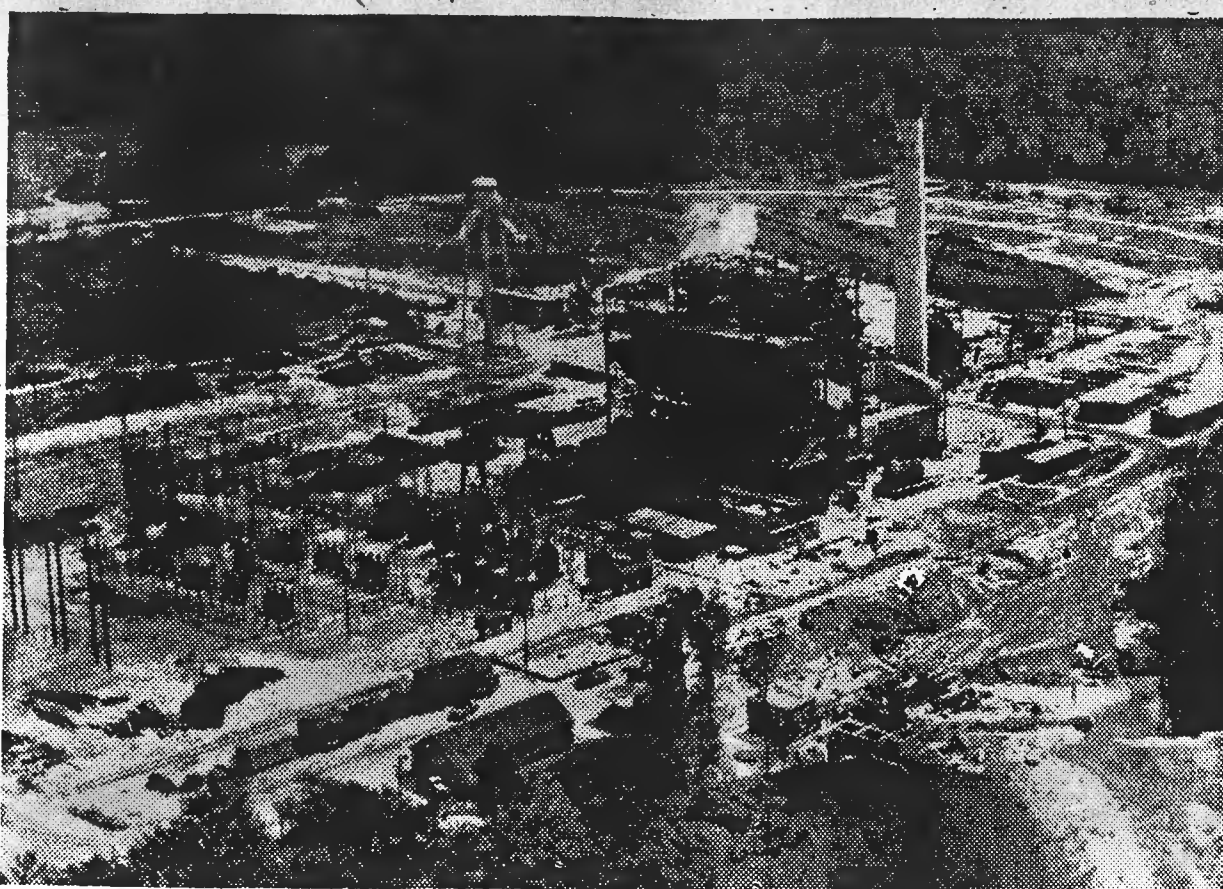

One good retailer has said, "If I were starting out in the retail grocery business I'd look for a location next to a chain store, and if I knew my business I wouldn't worry about customers." Moral there every businessman knows - "Competition draws trade."

All big business started small, and every businessman with any ambition wants to be a big businessman. It has been stated that "As long as competition is free and fair small business need not fear big business."

From our observation of A & P it is a fair competitor, and it is our hope that A & P beats the suit filed against it last week. We don't think they're a menace to small business any more than the owner of this paper would be if he were smart enough to run it into a string of a thousand similar papers. He'd like to be that smart, and so would you in your business. Is that wrong?

NEW POWER FOR THE CAROLINAS

Latest instrument for development of the Carolinas is this 120,000 horsepower steam electric generating plant at Lumberton, N. C., which will put into service by the Carolina Power & Light Co., September 30th. The first 60,000 horsepower unit will go to work at that time, and a similar unit is being installed. The Lumberton plant is part of a \$78,000,000 expansion program underway by CP&L. It will provide over 750,000,000 kilowatt hours of electricity per year, enough to serve over 300,000 average residences.

Kiwanis Club Passes Resolution On Cecil Dew

Resolutions on M. Cecil Dew Adopted By The Raeford Kiwanis Club.

Our Kiwanis Club, along with the entire community, was shocked at the tragic and untimely death of our beloved fellow member, M. Cecil Dew, on the night of August 24th 1949.

Cecil Dew was a member of this Club for years. He had served as President and Treasurer of the Club, and was a member of the Board of Directors for several terms. He had also acted as Chairman of some of our most important committees. His loyalty and devotion to our Club was best answered by the fact that he was in his seventh year of continuous attendance at our meetings. We have lost a true Kiwanian and we shall greatly miss him.

Cecil Dew in his daily living and contacts with his fellow men exemplified one of the precepts of Kiwanis "The Golden Rule." To know him, was to love and respect him. His friends came from all walks of life. He filled an important place in his Church, this Club, and the affairs of this community.

Therefore, be it resolved by the membership of the Raeford Kiwanis Club, duly assembled on this 1st day of September 1949, that we do sincerely regret and are deeply sorrowful for the untimely passing of our beloved and valued member.

Be it further resolved, that a copy of these resolutions be sent to his bereaved family, a copy to the News-Journal, and a copy be spread upon the minutes of this Club.
