

# JOIN THE FARM BUREAU

## Hoke County's Goal: 450 Families

The Farm Bureau Federation is an organization continually fighting for the farmers—not only to see that they get their fair share of the consumers dollar, but that they have the necessary laws to protect them in their business, the same as other business organizations.

If farmers will think back over the brief period since 1933 and review

how the Farm Bureau has grown and what it has done for them, there should be no question as to the value of the organization. There was never a truer statement than the one which says, "It Pays to Organize."

In the past farmers may have approved the organization and enjoyed the benefits, but if they want to protect their interest and continue

to see it succeed, it will be necessary to join the organization and give it their full support. Farmers are respected when they become affiliated with an organization which maintains the fine records and high standards of living advocated by the Farm Bureau.
