## Educators Plan Cumberland Meet

E. C. SIPE

An outstanding trainer of teachers and a school-minded editor will be the two main speakers when teachers of the Southeastern District of the North Carolina Education Association gather at Fayetteville High School, October 5, for their twenty-eighth annual convention.

Guy B. Phillips, Dean of the School of Education, University of North Carolina, Chapel Hill, will address the ten o'clock general session on the subject "Planning Schools for National Defense."

D. Hiden Ramsey, Vice-President, The Asheville Citizen-Times Company, and Vice-Chairman, W. R. Hare and family.

Mr. and Mrs. O. B. Israel and children visited Mrs. Israel's parents. Mr. and Mrs. Eubanks, of Beaufort Sunday.

## Citrus Sodas Good Afternoon Snacks

Rather than eliminate cool after-school refreshment from the youngsters' schedule, be sure they get something good for them—such as nutritious sodas made from Florida's canned citrus products. The small fry shown here are mixing their own thirst quenchers, which hit a high spot on the Vitamin C score. Canned citrus juices are good mixers with ice cream, sparkling water, and come in a variety of delicious flavors—orange, grapefruit, tangerine, and blended orange and grapefruit.

man of the State Board of Education will speak at the afternoon general session. Editor Ramsey's topic will be "Cui Bono." E. C. Sipe, Clinton City schools, President of the Southeastern District, will preside at the general sessions. Other officers of the district are M. G. Isley, Whiteville Schools, Vice-President; and Mattie Belle Rogers, Fayetteville, Secretary. The Southeastern District includes the following thirteen counties: Bladen, Brunswick, Columbus, Cumberland, Duplin, Hoke, Jones, New Hanover, Onslow, Pender, Robeson, Sampson and Scotland. Divisional meetings will be held

following the first general session. Dr. James Millar, Executive Secretary of the Good Citizenship Foundation, Portland, Oregon, will speak at a luncheon meeting of the Classroom Teachers. Mrs. Sally Allen, Fayetteville, will preside.

Dr. Clyde A. Erwin, State Superintendent of Public Instruction; Wade M. Jenkins, Division of Textbooks; Dr. J. Henry Highsmith, Division of Instructional Service; Walter R. Dudley, Red Springs; and O. P. Johnson, Duplin County will appear on the program of the Division of Superintendents. L. A. Bruton, Whiteville, will preside. Henry C. McFadyen, Director of Public Relations for the NCEA, will speak to the Division of Principals. Dale K. Spencer, Wilmington, will preside. Mr. Ramsey will also speak at a joint luncheon meeting of superintendent and principals. Sixteen Departmental Meetings round out the program for the day. These meetings begin at 4:15 and last one hour.

## October Best Time To Seed Fall Oats

Tests conducted by the North Carolina Experiment Station show that oats seeded in early October produce yields twice as high as those seeded in mid-November, according to W. H. Rankin and G. K. Middleton, agronomists for the station.

In the tests, seedings made between October 1-15 produced 59 bushels per acre, while seedings made on November 15 produced only 30 bushels.

The agronomists point out that the number of days favorable to soil preparation is quite limited after November 1. Rain and wet soil, both typical of this period, make late seeding almost impossible. Late seedings also are more vulnerable to early freezes.

Variety as well as seeding date is important in producing good small grain yields, say Rankin and Middleton. Atlas 50 and 66 wheat are recommended in Coastal Plain and Piedmont areas and

Thomas wheat is recommended in the mountains. Arlington oats are recommended throughout the State or all seedings. Victorgrain and Fulgrain are good early varieties for Piedmont and coastal areas. As for barley, Colonial and Calhoun are suggested.

Nitrogen should be applied to small grain between February 15 and March 15 for maximum results. The suggested rate is 30 pounds per acre, which can be obtained from 188 pounds of nitrate of soda, 150 pounds of Calcium of ANL, or 94 pounds of ammonium nitrate. Top-dressing after March 15 is too late to get maximum number and size of seed heads.

The Civil War developed an appetite for news among the people. The Herald was the first newspaper in New York to give detailed descriptions of the gowns worn by women at social affairs.

At the end of the American Revolution there were 43 newspapers in the colonies.

# Better Buy Buick!

PERHAPS you've noticed that there seem to be a lot of these brawny beauties running around on America's highways—and it isn't just that boldly gleaming front-end that spreads this impression. It isn't just the fact that folks who own a Buick get such a bang out of it that they do a lot of driving. Back of all this is another fact. It's a fact that contains a broad hint to anyone who'd like to know what's what in motorcar buys. 1950 Buicks are breaking all past popularity records, as registered in sales. So we suggest that you do some personal investigating. Find out, for example, how mas-

terful you feel, with Fireball power purring away the miles, at a polite touch of your toe on the gas treadle. Find out how the jolts and jars seem to disappear, when you have big soft coil springs on all four wheels, and fat low-pressure tires on wide Safety-Ride rims. Then there's Dynaflo Drive,\* which Buick owners vote the biggest automotive hit that has come along in years. With all this, there's room, and comfort, and road-hugging heft combined with a light and willing response to your hand on the

wheel—and prices that start down with the sizes. Seems like almost everyone wants to own one of these Buicks—and most people can. How about you? Isn't it a smart idea to see your Buick dealer now and get your name on his list?

Only BUICK has Dynaflo—and with it goes! HIGHER-COMPRESSION and with it goes! FIREBALL valve-in-head power in three engines. (New Fireball engine in SUPER models.) • NEW-PATTERN STYLING, with MULTI-GUARD front-end, taper-through fenders • TRAFFIC-HANDY SIZE, less over-all length for easier parking and garaging, short turning radius • EXTRA-WIDE SEATS cradled between the axles • SOFT BUICK RIDE, from all-coil springing, Safety-Ride rims, low-pressure tires, ride-steadying torque-tube

Tune in HENRY J. TAYLOR, ABC Network, every Monday evening.

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

...and 50¢ worth of electricity, please!

If electricity were sold over the counter—like meat or shirts—chances are you'd sometimes be caught without a kilowatt in the house! But if you bought kilowatts at the store, you'd be reminded often about electricity's low cost!

Just one penny's worth, for instance, will brew you 20 cups of coffee... bring you a whole evening's radio entertainment... vacuum-clean six

large-sized rugs... or swish the dirt from half a week's wash!

Quite a penny's worth of service, don't you agree?

Your friends and neighbors in this company, under sound business management—work hard to make this bargain possible. And it's a bargain you don't have to shop for and cart home. It's ready and waiting at the flick of a switch!
