Who's Your Repair Man?

When having a car serviced or repaired, even if only for a lubrication, it is very important to know the man you have doing it. Is he firmly established, with a reputation for square dealing? Is he really conscientious about giving you complete and first class jobs? When he does work, is he willing to back it up with a dependable guarantee? The men who comprise our Service Department are really more than mechanics as the name is generally used. Most of our men have been with us from 1 to 7 years. All of our men have been picked and trained to be a part of this team. Each of us takes personal pride in the fine and large clientele of customers we serve. We all join in saying:

"We would sincerely like to serve you, too"
