

Local Man Serving With Army In N. Y.

White Sands Proving Grounds, N. M.—Sergeant Dexter H. Holland has recently been assigned to White Sands Proving Ground, one of the nation's largest installations for research and testing of guided missiles.

Letter To The Editor

Dear Mr. Editor: If you have any available space either this week or next, I would like for you to publish the following statements.

Insect damage in North Carolina totals more than \$50 million each year.

talk at Kiwanis meeting last Thursday. Said he was coming in on tiptoe early one morning and his wife spoke from bed, "Is that you, Paul? His reply was, "It sure better be!" He must have told a hundred such husband-and-wife stories, most of them mighty funny.

Basketball

team. McPhaul led the faltering offense with 12 and Lovette placed second with 8. Tuesday night of this week The Does almost won their game from Massey Hill as they scored 21 points in the final quarter to come within one point of catching their opponents, who had built a 10 point halftime lead and stretched it to 13 at the end of the third quarter.

IS IT RIGHT

Is it reasonable to worry about Automobile Accidents and still grant men license to sell drink which is involved in more car wrecks than any other one cause? Is it reasonable to worry about Breakdown of the Home and still grant men license to sell drink which is involved in more divorces than any other cause? Is it reasonable to worry about Crime and Juvenile Delinquency and still grant men license to sell drink which is involved in more crime than any other one cause?

SCHOOL NEWS

deemed necessary to close the schools but the danger is not over yet. We beg the parents to take

the best care possible of their children. If the child is sick keep him home and in bed for a sufficient time for him to fully recover. It is better to do that than to send him back to school too soon. A relapse is worse than the first attack.

All schools are cooperating 100 percent in the March of Dimes. The schools have accepted the quota of 50 cents per pupil in membership. We earnestly hope that they will be able to meet this quota.

Next Thursday Dr. Finch, of the State Health Coordinating Service, will be here for a follow-up meeting with colored teachers at Upchurch school at 4 p. m. and at Hoke High for a continuation of his series of lectures on mental health at 7:00 p. m. Parents are invited to attend.

The Buffalo, New Hope, and Frye's Mission teachers held their fourth professional meeting at Buffalo last week. The general topic was Safety Education. R. B. Lewis, chief of the Raeford Fire Department talked to them on that phase of safety education dealing with fire prevention.

The Upchurch faculty held one of their professional meetings last Friday afternoon. The subject was Health and Physical Education. A panel discussed the various phases and the head of the Physical Ed. Department of North Carolina College at Durham summed up and gave some demonstrations. After the professional work was over a social hour was enjoyed in the cafeteria where a delicious dinner was served by the lunch-room staff.

We are sorry that the record of the Upchurch contribution to the T.B. drive was left out of last week's column. It was \$32.78.

Midterm exams are underway at Upchurch. They started Wednesday morning and will end tomorrow at noon.

Progressive achievement tests are being administered to all sections of the fifth grade this year at Upchurch. Last year they were given to all eighth grade sections. Advanced tests were given to the high school students. The faculty has had several letters from boys now in service expressing appreciation for having had the tests while in school.

Freedom School in an effort to raise money for the Pollo drive gave an interesting party Tuesday evening. The teachers served refreshments to the students before the party ended.

The Baby Contest sponsored by the PTA of Freedom School Wednesday night for the benefit of the lunchroom was a success. The President of the PTA awarded prizes to the 1st and 2nd place winners.

The Master's Club held its monthly meeting at the Bowmore School Tuesday evening at 4:00 o'clock. Routine business was discussed. The Bowmore School faculty served the Club a fried chicken dinner.

Dear Editor: ... the letters start. Then many readers of THE CHRISTIAN SCIENCE MONITOR tell the Editor how much they enjoy this daily world-wide newspaper, with such comments as:

"The Monitor is the most carefully edited newspaper in the U. S. . . . "Valuable aid in teaching . . . "News that is complete and fair . . . "The Monitor surely is a reader's necessity . . ."

You, too, will find the Monitor informative, with complete world news . . . and as necessary as your HOME TOWN paper.

CARD OF THANKS

We wish to express our deep appreciation to the many friends and neighbors who were so kind during the illness and at the death of my father, T. M. Molden. Mrs. K. D. Lowe.

The first essential of successful dairy farming in North Carolina is adequate production of home grown roughage, according to State College specialists.

Gains of beef up to 894 pounds per acre have been obtained on pure tall fescue, highly fertilized with nitrogen, at the North Carolina Experiment Station.

YOUR NATIONAL GUARD HELPS GUARD THE PEACE

Compare the DIFFERENCE in NATURAL CHILEAN NITRATE. See the DIFFERENCE in results! One difference between Natural Chilean Nitrate and other nitrogen fertilizers is quality — natural quality. It is the world's only natural source of nitrate nitrogen. The nitrogen content of Chilean Nitrate is 100% nitrate nitrogen — 100% available — 100% fast-acting — 100% dependable. No antidote is necessary. Chilean Nitrate is non acid forming. Rich in sodium and minor elements. Chilean Nitrate is rich in beneficial sodium that makes a stronger, deeper root system — improves crop health, vigor and nutritive value. It also contains small quantities of essential minor elements. Chilean Nitrate is the ONLY fertilizer that supplies nitrate nitrogen, beneficial sodium and essential minor elements. CHILEAN NITRATE of SODA
