

Weekly Report On

Activities Around Antioch

By Miss Fronde Kennedy

Eighteen of the Young People of Antioch Presbyterian Church, accompanied by four chaperones, and directed by the Rev. Gower Crosswell, enjoyed a "Retreat" in Montreat from Monday, August 9 to Friday, August 13.

Members of the party were Misses Jeannette McLaughlin and Frances Fletcher of Laurinburg, Mrs. David Currie, and David Gibson, who made up the staff of leaders. The girls were Misses Phyllis Bostic, Patsy Currie, Shirley Currie, Carole Everleigh, Harriet Hodgkin, Frances McDonald, Ellen McPhaul and Jeannette Watson. The boys were Bobby Clark, who is President of the Antioch Young People, Charles Conoly, Walter Curtis McNeill, Johnny Glisson, Malcolm Maxwell, Robert McNeill, Billy Monroe, and Jack Watson.

The party left Antioch early Monday morning with four cars and a trailer, carrying along quantities of food, army cots, tennis rackets, hiking clothes, bathing suits, and—of course—radios. Miss Fronde Kennedy lent the use of her house on the Graybeard Trail, which is an ideal place for such a party, the Antioch group made a pilgrimage to it last year. It has not beds for so many people, but there is plenty of floor space for army cots and pallets. The simplicity of the setting gave the young people a sense of camping out, but they were spared unnecessary hardships of pioneer life.

Mr. Crosswell led morning Bible hour immediately after breakfast, sometimes taking the group to the meeting in Anderson Auditorium and sometimes assembling them on the front porch. He advised them as to attractions and opportunities in and around Montreat, and turned them loose for the day. But Miss Jeannette set a one-o'clock dinner hour and a six o'clock supper hour. After their various pastimes all were ready to eat at the appointed hour. KP duties were so divided that none felt over-burdened.

Among the outstanding experiences was hearing some world-famous speakers, notably the

great Japanese Christian poet and philosopher, Kagawa, and the Rev. Charles ("Chuck") Templeton, Evangelist of the National Council of Churches. Another stimulating experience was a talk on her trip to the Holy Land by Miss Fletcher, illustrated by screen pictures taken by her.

On Wednesday the entire group went to Mount Mitchell, an unforgettable experience. On Thursday night Miss Kennedy and the Crosswells were honored guests for supper—and a grand meal it was, showing the resourcefulness of the hosts and hostesses. To prove their enjoyment of her house the youngsters sang a song composed for her and presented Miss Kennedy with a lovely surprise gift of writing paper and candy.

Rain on Thursday upset the plans for a really stiff hike up a really big mountain. Probably that was providential, for a very footsore crowd would have returned to Antioch on Friday. Many short hikes were made, swimming in Lake Susan, skating in the "Rec Hall", looking in on the Auction in Black Mountain, playing miniature golf, visiting the Historical Foundation and the World Mission Building.

Friday by noon the crowd was on the way back to Antioch, with much to tell of pranks, accidents, stirring experiences, and full of expressions of a determination to do it again next summer.

GARDENTIME

During the past month several gardeners have asked me for information about peonies. Should they be divided? When should they be moved? When should new planting be made?

The time for making new plantings or for moving or dividing old plants would be October and November in eastern North Carolina and September and October for the western or mountain section of the state. But don't move them unless there is some good reason to do so. Peonies do not like to be disturbed.

If you have a large clump that

is doing very well and producing good blooms don't disturb it. Any loss of roots will have a harmful effect. It is not necessary to divide and move peonies every two or three years as we do iris and daffodils. If a plant is not blooming satisfactorily, then it may be advisable to move it to a better location, or perhaps it has been planted too deep and should be taken up and replanted. In such cases cut off as few roots as possible. Peonies should be planted shallow—the buds should not be more than one to two inches below the surface of the soil.

Have you seen the newspaper ads of the "Miracle Plant" which will bloom for you without soil or water? It will really do that. The plant is the colchicum which resembles a large crocus and will send out blooms without leaves during August or early September, no matter if you put it in soil, water, or on the kitchen shelf.

You can buy these bulbs at any of the large seed stores. Plant them in the yard about two to three inches deep. Leaves are produced in the spring which die down in summer and flowers come out during August or September. Or you may plant them in a bowl in the house very much like paper white narcissus bulbs.

North Carolina's 1954 lamb crop (lamb's living on June 1 or sold before June 1) totaled 41,000 head, compared with 39,000 a year earlier.

When you go from

2 TO 1

You'll like it, too!

Thousands of Carolina homemakers already know this is a "sure thing." They figured it this way, and so can you.

Since you already use electricity to light your home; refrigerate your food; do your laundry; or play your TV or radio; why not go completely modern—Go All-Electric!

This single, efficient service can also cook your meals and heat your water. It's the ONE service that can perform ALL your household chores. And do a better, cleaner, safer job at lower total cost to you. This is so because the more electricity works for you, the less the average cost of every Kilowatt Hour. On top of that, you get the benefits of the bottom steps of the rates.

Next time you chat with one of your neighbors who has gone from TWO household services to All-Electric, ask her how she likes it. We'll bet she likes it—and so will you, when you go from "2 to 1." May we help you prove it to yourself? Just call your nearest CP&L office.

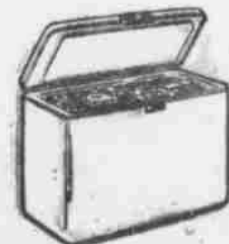

MRS. E. M. STOTTS, ROUTE 2, RALEIGH, N. C., says: "With electric cooking there is no odor. It is cleaner and cooler, which means a lot. Best of all, it is so economical."
