The dust from the gins where the dirty cotton, picked from the ground since the storm, is being ginned, is terrible. Last Friday afternoon the air was full of it here and you could see it for quite a distance floating on down towards Parkton. So, it seems that Hazel is still kicking up a dust.

Little Miss Ann McInnis, daughter of Mr. and Mrs. Smith McInnis, of Raeford, Rt. 2, had a tonsillectomy at Highsmith Hospital last Friday.

Sydney Lovette, student at Lees-McRae College, Banner Elk, came home last Thursday and spent the remainder of the week

Hubert Martin and daughter, Annie Laurie of Mt. Olive and Charlton McLaurie and Mrs. Annie Morrison of McColl, N. C.

Pumpkin Pie Just Goes With A Harvest Season

Looking for a pumpkin pie with that melt-in-your-mouth quality? Then look no further. This recipe offered by Mrs. Jewell Fosenden, State College ex-

tension nutritionist, is a chiffon-type pie, pumpkin flavor, that's bound to satisfy the most particular eaters.

Pumpkin Chiffon Pie 3 egg yolks, beaten 1/2 cup sugar (brown or white) 1 1/2 cups cooked or canned pumpkin 1/2 cup milk 1 teaspoon salt 1 teaspoon cinnamon 1/2 teaspoon nutmeg (optional) 1 tablespoon plain gelatin

1/2 cup cold water 3 stiffly beaten egg whites 1/2 cup granulated sugar

Soften gelatin in 1/2 cup cold water. Combine egg yolk, sugar, pumpkin, milk, salt and spices. Cook in a double boiler until thick and smooth. Stir the mixture constantly while it's thickening. Add the gelatin softened in the 1/2 cup cold water. Cool mixture. Beat egg whites adding sugar when the egg whites are frothy. Continue beating until whites stand up in peaks. Fold

egg whites into pumpkin mixture. Pour into a prepared 8-inch shallow or baked crust. Chill until firm and serve.

We bring you THE 1955 BUICK

New thriller in Style - Power - Performance

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

A BRIGHT NEW FRESHNESS greets your eyes and tells you: Buick's done it again.

You see it in the bold distinction of that gleaming Wide-Screen Grille. You see it in the rakish sweep of the rear-end contours. You see it in the whole fore-and-aft newness of fleet-lined grace that marks Buick the beauty thrill of 1955.

New horsepower - up to 236

You learn more when you get the power story. Up to new peaks go the horsepowers of every Buick V8 engine - a whopping 188 hp in the low-price SPECIAL - a mighty 236 hp in the CENTURY, SUPER and ROADMASTER.

And it's new, more responsive, far abler power you can literally feel as you go.

But even bigger Buick news for 1955 is

something more than style and power. It's what the "variable pitch propeller" now has done for Dynaflo Drive.

Up goes performance - and gas mileage too

When you find it necessary to push the pedal to the floor board, you do more than call on the greatest high-compression V8 power in Buick history.

You do what a pilot does when he heads his plane down a runway.

You do in oil what he does in air - you cut down take-off time by using "variable pitch propellers."

In this case, the propeller blades are inside the Dynaflo unit. But they're engineered to swivel or change their "pitch" just like plane

propellers - and with the same result: one pitch for getaway, another pitch for gas-saving fuel efficiency.

And what you get in the way of instantaneous safety-surge with absolute smoothness, you can only believe when you feel it.

This you have to try

Of course, we want you to come and see the trend-setting new Buicks - look into the betterments in gasoline mileage that add new thrills to these spectacular cars.

But this year, "seeing" is only the beginning. So - while you join the crowds viewing the new Buicks this week end, make a date to get behind the wheel as soon as you possibly can. We promise you the thrill of the year.

\*Standard in Roadmaster, optional at extra cost on other Series.
