State College Answers Timely Farm Questions

QUESTION: The first calf dropped by one of my beef cows was small. What are my chances

on the next one?
ANSWER: Records show that cows are consistent in the weights of calves they produce. Those with calves below average one year usually produce another lightweight calf the next time, even though they may take a year's rest.

QUESTION: Does topping and suckering influence the nicotine content in tobacco?

ANSWER: Yes. Both produce a higher nicotine content in tobacco plants. The earlier you top the plant and the fewer suckers you allow to grow, the higher the nicotine content. This occurs because nicotine made in the roots is concentrated in the growing top leaves, rather than being diluted into extra sucker growth.

QUESTION: After I store my grain under Commodity Credit Corporation can't I just forget it?

ANSWER: No. Loss in quantity will be charged against the farmer when final settlement is made or he may lose his loan protection entirely. It's a good idea for the farmer to make frequent checks on the grain and take measures to correct anything that may need attention.

Fertile soil is the base of healthy crops, healthy livestock, and healthy people.

... Mom, how about bringing Jane down for Easter Holidays!
If you're making Easter Holiday plans that include out-of-town relatives or friends, remember, Long Distance is the swift, sure way to get everything lined up.
It costs so little, many folks make a habit of talking to loved ones at home regularly by friendly, personal Long Distance.
And don't forget, Long Distance service is even more of a bargain after 6 o'clock every evening and all day Sunday.
CAROLINA TELEPHONE and TELEGRAPH COMPANY

Complete and official figures show that again in 1954 - for the 19th straight year - MORE PEOPLE BOUGHT CHEVROLETS THAN ANY OTHER CAR
No other low-priced car even comes close to matching these important Chevrolet advantages...
If you're planning to buy a new car, the one you just can't afford to miss seeing is Chevrolet—for 19 straight years America's best-selling car. The Motorcar Chevrolet offers you so much more than the other low-priced cars that it's hardly fair to compare them. And even the high-priced cars don't have all the advantages that today's Chevrolet offers you.
The beauty's built in—not bolted on! Chevrolet's beauty is inherent in the basic contours of metal and glass. There's no excessive bolted-on ornamentation to go out of style overnight.
The Body's by Fisher! You see Body by Fisher on lots of the high-priced cars—and only Chevrolet has it in the low-price field!
Today's most modern engines! That goes for Chevrolet's new V8 and two new sixes as well. All bring you a modern 12-volt electrical system—double the voltage of other low-priced cars. Then Chevrolet's new "Turbo-Fire V8" has the shortest piston stroke in the industry!
A drive to suit your driving! There's silky, peppery Powerglide (even better this year!), new Overdrive (both extra-cost options), and a new Synchron-Mesh transmission that's as smooth as they come.
All the power helpers you want! Windows, seat, steering, brakes—all are available with built-in "muscles" to make driving as effortless as you wish. They're optional at extra-cost—and worth it!
Come take the key! There have never been so many good reasons why you should drive a Chevrolet!
Over Ten Million Chevrolet owners—Two Million more than any other car!
