

ROCKFISH NEWS

By Mrs. A. A. McInnis

Tabernacle Church will have as their guest speaker next Sunday morning, Miss Marjorie Spence of Chalybeate Springs, returned Missionary to Chile. Miss Spence will, no doubt, bring a very interesting message, so be sure to hear her.

The Rev. and Mrs. Scott Turner had as their guests over the week end, Mrs. S. M. Shelton and son, Gerard Shelton, of Portsmouth, Va.

The Sunshine Circle of Tabernacle Church met Monday afternoon at the home of Mrs. Ed Bundy. The Etta Long Circle met with Mrs. P. C. English Monday night.

The Young Peoples Societies of this church will all meet at the church on Friday night.

The Wayside Grange met at the community house Tuesday night, for the installation of officers. Most of the officers elected for 1956 were present. Worthy Master F. P. Johnson presided. Past Master Phil Johnson of Fayetteville was the installing officer in charge. The ceremony was carried out in a very dignified and impressive manner. There were several resolutions passed during the business period, and plans were made to increase membership.

Two new members were initiated. They were H. C. Gilliam, Jr., the assistant county agent and Mrs. R. W. Posey.

At the close of the meeting Miss Josephine Hall served delicious homebaked cake with coffee.

The community house has been enlarged and greatly improved in

looks and convenience recently.

Mrs. Dave Koonce entertained a group of friends at an old fashioned all day quilting party last Thursday. Mrs. Joe Lambert had one at her home this week.

Mrs. David Ritter's father, H. F. Williams of Red Springs, was a guest of Mr. and Mrs. Ritter and family the past week end.

The Philippi Club met in the home of Mrs. N. A. McKeithan last Friday night. Mrs. Roy Jones gave the demonstration on vacuum cleaners.

Mrs. William Gillis II, Miss Berta and Miss Alma Capps were hostesses at a miscellaneous bridal shower for Mrs. Malcolm McInnis of Fayetteville in the ladies Bible classroom at Galatia Church last Friday night.

Appropriate games and contests were enjoyed until the gifts were brought. They were as bountiful as the rain outside and of a great variety, both useful and beautiful.

Mrs. Hugh Overton was a patient at Highsmith Hospital for several days last week.

Refreshments were served to thirty guests.

Mrs. C. F. Boahn, Mrs. James A. Johnson, Jr., Mrs. Lattimore Norris, Mrs. Claude Boahn, and Mrs. Franklin Koonce gave a housewarming Tuesday night, February 7 for Misses Mary and Filra Ray, whose new house has just been completed.

Mrs. J. A. McFadyen of Wayside spent last week in Winston-Salem with her son and daughter-in-law, Mr. and Mrs. Archie McFadyen. Mr. McFadyen went for her Saturday and they came back Sunday.

The people of this and surrounding communities extend their sincerest sympathy to the family of Jim Reynolds, who passed away at Moore County Hospital last Saturday.

Arabia News

Mrs. D. B. Traywick

Mrs. Frank McMillan and daughter, Ray, and Neill A. Jackson visited Mrs. McMillan's sister, Mrs. A. R. Wilson, who is ill in a Lumberton hospital Sunday afternoon.

Mrs. Ada Jackson spent the week end with Mr. and Mrs. Furrman Parnell of 71st Township.

The Ephesus Woman's Missionary Society members met in the home of Mrs. Tom Jones of Dundarrach Monday night.

The Mildouson PTA met in the luncheon Wednesday night for the regular monthly meeting.

C. D. Bostic went to Purvis Friday night to attend a Ruritan supper and meeting of that new club.

T. C. Jones and Daniel McInnis returned home Tuesday after spending the week end in New York City where they attended the National Ruritan Convention.

Mrs. D. L. McGougan has been on the sick list for the past week.

Mr. and Mrs. Arch Gentry and family of Purvis, Mr. and Mrs. James McKenzie and family, Miss Una Paul of Purvis and Mrs. Cole Williams were dinner guests Sun-

day in the home of Mrs. Cornelia Russell, Carolyn and John McKenzie.

The Arabia Home Demonstration Club meeting was held in the home of Mrs. Wilbur Smith Tuesday afternoon. We hope more members can attend as the attendance has dropped very much.

The Sandy Grove WSCS meeting was very well attended in the home of Mrs. J. A. Jones Tuesday night. The February study on "The World's Laborer, Worthy of His Hire", was led by Mrs. Brown Hendrix and was very interesting and everyone enjoyed it.

GARDEN TIME

Gardeners in Eastern and Piedmont North Carolina should begin to think about planting their Irish potatoes. The land should be prepared as soon as possible but planting may be delayed until in March without any appreciable loss in earliness. In the Mountain areas planting may be delayed until April. Do not plant potatoes in poorly drained areas or the seed pieces may rot in the ground.

The Irish potato requires heavy fertilization as well as good soil in order to make large yields. At least one gallon of 8-8-8 fertilizer mixture should be used per 100 sq. ft. of row, thoroughly mixed in the row soil about a week before planting time. In home gardens and small plantings, potatoes are usually planted by hand, and if the fertilizer is applied in the furrow at planting time there is danger that it will come into contact with the seed piece and damage it.

Do not apply lime to potato soils. Lime and also fresh stable manure will promote the growth of potato scab disease if present in the soil or on the seed.

Irish Cobbler is still one of the most popular white potato varieties for home gardens. Canso, a Canadian introduction, is resistant to late blight and is replacing Irish Cobbler to some extent in the Eastern areas. Sebago and Essex are good but are later than Cobbler. For those who prefer red potatoes the Triumph (Red Bliss) and LaSoda varieties are probably best. In the moun-

tain areas we would recommend Boone, Kennebec and Essex. These are all resistant to late blight disease.

It is best to use certified seed if obtainable. Certification is a guarantee that the seed potatoes are practically free from the most serious diseases. Seed pieces should be cut so that they average from 1 1/4 to 1 1/2 ounces in

weight and must contain at least one good eye. Smaller seed pieces will give lower yields. Space the rows three feet apart and the seed pieces 10 to 12 inches apart in the row. The usual planting depth is about four inches. Contrary to a common idea, there is no advantage in turning all the eyes up in planting the seed pieces.

Average prices paid by North Carolina farmers for most feed items decreased slightly during the month ended December 15, 1955.

Cattle slaughter this winter is expected to equal or exceed last winter; hog slaughter will be up because of a 12 per cent gain in the 1955 fall pig crop.

NiCarbazin SERVICE NEWS

No. 2
1956

Q. What other benefits may I expect after NiCARBAZIN removes the coccidiosis problem?

A. Your birds should show a gain in feed efficiency. In addition, they will weigh more, dress out heavier, and show a better skin color. These benefits mean you'll cut production costs and command better prices for your birds. It all adds up to greater poultry profits for you.

Q. Is NiCARBAZIN consistently effective against coccidiosis mortality?

A. Yes. Reports from every broiler area show that NiCARBAZIN provides the most effective curb against coccidiosis death loss. In one area, for example, growers reported no coxy death loss in 174,542 birds protected with NiCARBAZIN. With these same growers, mortality ran as high as 12 per cent in 48,500 birds on another coccidiostat.

Q. How does NiCARBAZIN compare with other coccidiostats in its effect on market weight?

A. In recent comparative feeding trials, NiCARBAZIN-protected birds averaged 0.19 lb. more than birds on another coccidiostat. This extra weight per bird gave growers 10,564 lbs. added market weight for the 55,600 birds on NiCARBAZIN feeds.

Q. Is there a reduction in overall mortality, as well as coccidiosis mortality, when NiCARBAZIN is used in feeds?

A. Several poultry diseases are caused by secondary infections which may develop in birds already weakened by such conditions as coccidiosis. Because NiCARBAZIN can practically eliminate coxy damage, birds are better able to resist secondary infections.

NiCarbazin Means
No Coccidiosis Problems

Don't
blow a fuse—

ADD TO YOUR WIRING!

This poor fellow doesn't realize that modern wiring can untangle his sorry situation. He's not alone either. Your home may be among the 4 out of 5 homes today where comfort and convenience are snarled up by out-dated wiring.

Like most modern families, you've added a score or more appliances to serve your electrical way of life. But the wiring in your home has not kept pace. It's overloaded. Such wiring cannot power your appliances properly. It wastes the current you pay for—adds drudging hours to household chores.

Want to banish the strangling entanglements of old wiring? Just add to your present wiring — modernize it! You'll hardly notice any interruption of electric service. At no obligation, your electrical contractor (see YELLOW PAGES in phone book), or nearest CP&L office can advise you.

FREE BOOKLET! Planning to buy, build or remodel? "The ABC of Home Wiring" is a handy guide. Supply is limited, so write or call your CP&L office for your copy soon!
