TOBACCO AND COTTON aren't the sole crops planted in the county. A good source of income for the farmers in the area is beef cattle and dairy stock and these ani-

mals burn hay. The necessity for hay and silage for these animals makes corn and legume raising especially important.

The Junior Division shall include the identical list as the Senior division. The Junior division shall be interpreted only as 4-H, FFA, FHA, NFA, NHA, or other organized youth groups as determined by the Chairman of the Youth division at specific request of the adult counsellor of the group desiring permission to enter.

The product exhibited in the Junior division must be grown, made or prepared as a project by the person who enters it.

All products must be entered in the name of the person who grew, canned or raised the product.

**Requests patronage**  
Members of the exhibit committee ask the public to patronize the advertisers in The News-Journal Fair Tabloid, stating that their cooperation is what made the publishing of the paper possible.

"Those who have worked for the Exhibit committee have not done so with hope of profit in money, but have given of their time and means for the purpose of encouraging the advancement of agricultural enterprises of the purpose of encouraging the advancement of agricultural enterprises of the county, the advancement of homemaking, cooperative efforts and to promote a county-wide meeting for social pleasure," Josephine Hall, Hoke Home Demonstration agent, states.

She says that exhibitors can help by bringing all of the products that they can that are well prepared and of good quality.

"I hope that people will make constructive suggestions about how the exhibits and fair can be improved for next year," she states.

"We're asking all persons to enter as many exhibits as they can on Monday morning, and then

visit the fair with their families and spend some time with their exhibits answering questions and giving general information to the public.

"Every effort will be made to keep visitors from handling the exhibits because we understand that the entrant doesn't want his handiwork ruined by over-zealous onlookers."
