## McAllister Is Named Hoke Coordinator

John D. McAllister, Assistant Superintendent of Hoke County Schools, has been named Local Coordinator of In-Service Education in North Carolina by Craig Phillips, Superintendent of the Department of Public Instruction.

The Program for the Professional Improvement of Teachers, a State financed program, provides funds to administrative units for local in-service programs in accordance with regulations and procedures adopted by the State Board of Education.

James Valsame, acting director, Division of Staff Development, explained that the local coordinator will be invited periodically to regional meetings to bring them up to date on State sponsored in-service education and staff development opportunities.

"Funds are still available for all phases on the program for the current school year, and all teachers are encouraged to take advantage of these programs. The Local Coordinator will be invaluable to the teachers in their administrative unit and to the Department of Public Instruction in helping to make this program even more meaningful to the improvement of public education," Dr. Phillips said.
