One inch of rainfall falling on one acre of woodlands weighs just a little under 114 tons, reports the Southern Forest Institute. That's just another benefit made possible by our Southern forests. They help protect our watersheds.

One ounce of wood pulp from a Southern pine tree contains more than 13 million individual wood fibers, reports the Southern Forest Institute.

Kids Day At Pope

The 14th annual Kid's Day, sponsored by the Fayetteville Kiwanis Club and Pope AFB, will be held Saturday at Pope.

This special program for youth is directed at ages 9-14 and grades 4-9.

Scheduled during the day will include an air activities show of C-130 aircraft; sports parachute demonstrations; the JFK Center drum and bugle corps; a fire fighting demonstration; aircraft loading demonstration; a bus trip around the C5-A; the kiddie jump towers and a concert by the 9th Air Force Band from Shaw AFB, S.C.

The activities begin at 11 a.m.

CADET CORPORAL - William Clark, son of Mr. and Mrs. Furman O. Clark of Raeford, holds the rank of cadet corporal at Carolina Military Academy and has been appointed the assistant to the captain of management and training. Clark is a member of the newly-formed platoon of day students at the academy.

New Ford Debuts Fri.

Ford's new subcompact car, the Pinto, and the restyled Mustang and Ford lines will be on display at Raeford Auto Company beginning this month. The Pinto will debut Friday and the remainder of the 1971 cars and trucks will be on display beginning Sept. 18.

Smallest of the domestic subcompacts, Pinto is four inches longer, eight inches wider and seven inches lower than the leading import.

WOW Hosts Log Rolling

Woodmen of the World Camp 118 and Grove 6179 of Raeford invite all WOW members to attend the Fall Log Rolling of the Sandhill Log Rolling Association on Oct. 10 at South Hoke School.

Registration for the business meeting will begin at 3:30. A banquet will begin promptly at 6 p.m. A short program will be held and then entertainment and dancing are planned.

All members are urged to attend.

Vinson Goes To Workshop

Jake Vinson, Farmer's Home Administration supervisor for Hoke County, is attending a two-day workshop on FHA credit Sept. 9-10 in Charlotte.

Included in the workshop is information on a recent program that provides credit for farmers for establishing non-farm business enterprises; and to convert farms to recreational enterprises and credit available to assist farmers with crop losses due to hail and drought this summer.

Farm Items

By W. S. Young
County Agricultural Agent

Large numbers of feeder cattle will be marketed in North Carolina during September and October. We usually think of marketing costs in terms of sales fee and transportation charges, but drift or loss in weight from farm to market, represents the largest marketing expense to feeder cattle producers. Since each producer owns the cattle until they get to the sale barn, the following suggestions are offered to minimize drift:

1. Arrange for transportation well in advance of the time you plan to move your cattle.
2. Require that truck be clean and that there is plenty of sand or other bedding.
3. Do not overload the truck and this is probably where we lose most drift.
4. Confine the cattle in a small area the night before they are to be loaded.
5. Some easy handling in loading will reduce the drift.

For those people who buy animals, they should be moved home as soon as possible, given some antibiotics, provided with plenty of clean water and observed 3 to 4 times a day the first week.

Fertilizer is now being used for the first time in North Carolina to speed up the growth of commercial forest trees. The practice is expected to grow by leaps and bounds in the next few years, helping to usher in a new era of intensified forestry production. Limited tests have shown that fertilizer can reduce the amount of time needed to grow some 14 inch trees by about one-fourth. Some of the best responses to fertilizer have come from an application of phosphorus on wet soils.

More Than 25 Miles Per Gallon? ITS TRUE!!
SEE THE PINTO FRIDAY AT Raeford Auto Co.

CHEVY'S NEW LITTLE CAR IS OPEN FOR BUSINESS.

We call it Vega. We also call it "the little car that does everything well." Because it does.

Everything? Everything.

Vega moves well, stops well, steers well, rides well, handles well, responds well, passes well, travels well, parks well, wears well, and is priced well under what you'd expect to pay for such a talented little car.

In our highway tests, Vega has been getting gas mileage in the neighborhood of the little imports, which isn't a bad neighborhood.

Yet unlike your average little car, ours steps right out when you step on the gas.

The engine is a specially designed overhead cam four with a lightweight aluminum alloy block. It turns slowly and quietly at turnpike speeds, with power to spare.

Disc brakes are standard in the front. So are bucket seats, except on the truck.

How we doing so far?

Numbers speak louder than words.

The wheelbase is 97 inches. Total length is just under 170 inches, or nearly four feet shorter than a full-size Chevrolet.

Height of the coupe is just 50 inches, nine inches lower than the leading import.

Width: a nice stable 5 1/2 feet.

Weight: 2,190 lbs. for the sedan.

Engine displacement: 140 cubic inches.

Fuel economy: about 25 mpg, with the standard engine and transmission, in our highway tests.

Horsepower: 90. You can order 110. (80 and 93 hp, SAE Net.)

Seating capacity: 4 adults.

What it all adds up to is a lot of little car.

Three cars and a truck.

Vega turned out so well that we couldn't turn out just one.

So we're turning out four: the sporty little hatchback coupe shown open and closed in the foreground below; the sedan, on the right; the Kamback wagon, on the left; and the little panel truck, in the rear.

Oh, and a special GT version of the coupe and wagon which we'll show you later on.

September 10th is Opening Day.

All 6,300 Chevrolet dealers are handling Vega, so you shouldn't have to go very far to see and drive one.

Chevy's new little car is open for business. Look into it.

Mfg. Lic. No. 110
