

Apollo Craft On Exhibit

Public school students from Hoke County have been invited to see the Apollo return space vehicle when it is exhibited in Raleigh December 31 through January 4. The display will be on Halifax Street just north of the Capitol and will be open from 10 a.m. to 8 p.m. daily.

Raleigh even though the exhibit comes during a holiday period. "As far as we know," he said, "this will be the only chance for North Carolinians to have this learning opportunity brought to our own soil. Science-oriented students and teachers, in particular, should find the display especially educational."

Complete with space burns, moon rock samples, and used astronaut suits, the Apollo space craft is being taken to all 50 state capitals. North Carolina is the 38th stop on the year-long NASA tour.

Neil Armstrong, Michael Collins, and Buzz Aldrin were the Apollo 11 crew members in the historic July 1969 lunar mission that first placed a man on the moon.

Garden Time

By M. E. Gardner

Help make North Carolina beautiful in 1971. This cannot be accomplished by garden clubs alone, or municipal governments, alone, or the state government, alone. It can be accomplished by the individual efforts of all the citizens.

Many times the character of a family can be judged by the appearance of the home. Visitors can likewise judge a town or city by the appearance of the homes. A well landscaped industrial plant, factory, warehouse or place of business denotes officers and employees as congenial and efficient as their pleasant surroundings. With pleasant surroundings you find too, good neighbors, substantial citizens and community pride.

Real estate dealers tell us that they can get at least 10 to 15 percent more for a home if it is well landscaped. The plants become more attractive as they grow and provide shade and color, or whatever they were selected to accomplish in the landscape scheme. If the neighbors match your efforts, the whole neighborhood will become a desirable place to live, and your home or business become a good investment should you wish to sell.

Colorful flower borders, edging plants along walks and drives, well selected foundation plants and trees for

framing your home all add up to enjoyment and pleasure for everyone in the community.

North Carolina is one of the most garden-minded states in the nation. With more individual enthusiasm and responsibility, it could also be the most beautiful.

You may be surprised to learn that the avocation or hobby of gardening, amounts to a whopping 4 billion dollars annually in the United States. I think the reason for this stems from the fact that it is something in which the entire family can participate. Aside from the family groups we have the specialists, who can create many art forms with living plants.

Plant the flowers, shrubs, trees, fruits and vegetables that you like best and those that are best suited for your locality. Take pride in whatever you do. Remember, too, that a beautiful lawn is your welcome mat.

FOR BEAUTY - F.T.A. members Rosemary McGougan, Lynn Currie, Mrs. Linda Steed, advisor, and Kathy Bounds, president, do the spade work to plant six flowering plum trees on the school grounds.
