Veterans Corner

EDITOR'S NOTE: Below are authoritative answers by the Veterans Administration to some of the many current questions from former servicemen and their families. Further information on veterans benefits may be obtained at any VA office or your local service organization representative.

Q - I am 62 years old, and desire to convert my National Service Life Insurance term policy to the modified life plan. What premium must I pay?

A - Sorry, you cannot convert to the modified life plan after age 60. However, Ordinary Life has the lowest premium of the other plans available at your age.

Q - I understand veterans have deadlines which they must meet to be eligible for certain benefits. Is there a deadline for applying for VA hospital care?

A - No. There is no time limit for a veteran to receive hospital care if he is eligible, needs it, and a bed is available. Beds are always available at VA hospitals for veterans with a service - connected disability.

Q - Is a veteran penalized if he pays off a GI home mortgage loan before it is due?

A - No. A GI loan may be prepaid without penalty at any time. Prepayments may be made in the amount of the regular monthly installment of \$100, whichever is lesser, or in any larger amount.

There's nobody like your new baby

Of course, there isn't. But will your baby always be "someone special?"

A great deal depends on how well you safeguard your child's future - making sure there will always be funds for higher education, for example.

There's where I come in. I can show you how to safeguard your child's future through a carefully planned Metropolitan Life insurance program. Don't you owe it to the adult you want your child to be?

Jerry W. Goza
