Club Meets

Rockfish Extension Homemakers Club did meet last week but it was just for a short time at the community house at eleven o'clock last Wednesday a.m. For they were "taking off" to Ballentines Cafeteria in Fayetteville to have dinner there instead of the annual August picnic here. So off they went in good spirits everyone, taking only enough cares for 13 club members who went. And soon they were at Ballentine's Cafeteria, where they had a table long enough for all to sit together. The food was very good. No one monopolized the conversation but all chatted in a happy mood. As they enjoyed the food. When the lunch or luncheon as some people would say although it really was a dinner, was over some of the ladies went shopping while others sat and watched the passers-by until the time to come home. And so ended the clubs summer vacation, "on a happy note."

YARD PLANTS

Three shrubs planted in a triangle beneath a small window help increase the "importance" of the window, suggest extension landscape specialists at North Carolina State University.
