Dad's Secret

Psst! ... 'know a secret?' ... Dad's gonna have his day soon, so get prepared to give him a really "cool" gift this Father's Day! Be original, different, daring. Try the unusual. We "betcha" Dad'll appreciate it!

Dad's children could simply startle the ol' boy by taking over his chores around the house for a week. Present him with a gift certificate establishing immediate "take-over" of household duties. He'll be tickled!

A wifely gift for "Dad" would be a cake, cookies, or a special meal. Of course, standard gifts are always nice, and every year we have "neat" suggestions in our store. Just be sure to top it off with the right card.

And so, Dad, we hope these suggestions will help to make yours a Happy Father's Day!

Each week we present the above comments for your information. We very much appreciate your readership and would be especially happy to have you express your views regarding the contents of this space.

SCOTLAND

Are there any descendants of Jura folk in Hoke County? MacDonalds, MacEacharn, MacLean, MacNeill, Norton, Shaw? The Rev. Donald Budge, author of "Jura, an Island of Argyll," thinks there are. "Jura..." was given as a memorial to Bradley McDowell Norton, Dec. 20, 1911 - Oct. 20, 1954. His ancestors, referred to in this book, are recorded by Margaret F. Moore, genealogist, 31 St. Bernard's Crescent, Edinburgh, Scotland.

"Jura..." begins with a geographic description, proceeds to its history from early days through the era of Norse pillaging and plundering to the rise to power of the Lords of the Isles, through the turbulent history of 16th and 17th centuries. The latter part of the book is devoted to such subjects as emigration, schooling, trade, agriculture, Jura surnames and island tales. Those whose forbears have played a part in the shaping of Jura's history will find much of interest here. (941)

"Skinful of Scotch" by Clifford Haney, takes you, in a calculatedly

disheveled way, on a tour of the Scottish countryside and national lore. Kilts, Scottish respectability, and dour tightfistedness are revealed more as fancy than fact. In addition to an eye-opening comparison of Edinburgh and Glasgow, the reader gets a tongue-wetting description of Scotch and how it is made...as well as irreverent stories of the Edinburgh Festival and Burns' songs. The text is superbly illustrated by more than 60 Hartley Ramsay drawings showing subjects which give flavor to this extraordinary land. (914.1)

Clifford Haney was born and lives in Glasgow. He worked on various newspapers for about 20 years until he retired to concentrate on writing.

Accent On Agriculture

From health - giving milk and natural butter to flavorful cheeses and popular ice cream, those outstanding dairy foods that start with the cow depend on some help from others, too.

For example, modern farm machinery helps ... to produce and harvest feed crops faster and better ... to care for the cow and to milk her ... to make dairy farming more efficient.

But that's just part of the story. It's the man who cares for the cow ... the dairy farmer ... who makes the difference ... with his hard work, his knowledge, experience and sound business management.

All consumers should be proud to salute the dairy farmer -- not just during June, but throughout the year. Unfortunately, the dairy situation has changed drastically during the last few years. Many producers are going out of business, while others are reducing their milk herd because of the high costs of production. Farm labor problems and skyrocketing feed costs have placed many dairymen in an unbearable cost-price squeeze. Add to this the high costs and shortages of fertilizers, rising credit costs, and a decrease in milk consumption, and the prospect for a continued plentiful milk supply becomes highly questionable.

North Carolina cannot afford to have another dairy farmer forced out of business. For example, a producer milking slightly over 200 cows produces enough milk to supply around 6,200 people with three glasses of milk every day of the year.

For food value received, fresh wholesome milk remains a good buy. This fact is made even clearer when you consider that many carbonated beverages, containing little if any food value, are priced about the same as milk.

the broad jump with a record jump of 19 feet 3 inches, the 100-yard dash with a 11.1 second time, and the 220-yard dash which she ran in 25.6 seconds. She participated in competition for 16-year-olds.

The 880-yard relay team consisting of Elizabeth Campbell, Annie Bridges, Betty Monroe and Barbara Jones took first place with a time of one minute 56 seconds. Angela Davis took first in the discus throw with an 86-foot throw.

Second place winners from Hoke were: Glenda Blue with a shot put of 31 feet in 14-15 year olds' competition; Geraldine Murray in the 440-yard run with a time of 61.8 seconds; and the mile relay team of Murray, Minnie McPhatter with a time of 4 min. 33.8 seconds.

Taking third places were Davis in the shot put event with a 29-ft. toss, and Minnie McPhatter in the high jump with a height of 4 ft. 6 in.

Winners in the July 13 Regional Olympics will qualify for the National Little Olympics August 9-12 in Lincoln, Neb.

Accompanying the Hoke team Saturday were: Mary Somers, Hoke High School physical education teacher; high school girls' track coach, Glenn Langdon and family; and Raz Autry, superintendent of Hoke County School.
