A Special Pitch To Procrastinators

We'd like to make a special pitch to those of you who tend to procrastinate, or to put things off.

When your doctor writes out a prescription order, don't put it aside to be filled later. Have it dispensed that day!

No therapeutic value whatever can be gained from a prescription order which is left laying around the house or in a pocketbook. It must be taken to your pharmacist. Only he is qualified to transform your order into a life-saving or disease-relieving medication. And then only you can put that medication to work by using exactly as prescribed.

So, get the maximum benefit and attach a "sense of urgency" to having your prescription filled promptly.

We try to give you the best prescription service at the lowest possible price. Always feel free to call us.
