Comment

It seems as if the Sunday rain washed away most of the Rockfish News and it's a wonder there is any, but some people were brave enough to take long trips and others went to church and that was good. We are witnessing for Christ if we go to church in the right spirit and not to be heard of woman or seen of men.

Loan Funds For Business

Guaranteed loan funds for North Carolina businesses and industries are available through the Farmers Home Administration, reports James T. Johnson, FmHA Director.

These loans can be made to existing businesses and industries for expansion purposes or to new businesses for new facilities. Loan funds may be used for: land purchase; building construction; machinery and equipment purchase; working capital.

Repayment terms are up to 30 years for real estate purposes; 15 years, or its useful life, for machinery and equipment; and up to 7 years for working capital.

The industry or business must be located in or planning to locate in a rural area or town of 50,000 or less. Objective of the program, reports Johnson, is to create new jobs in rural areas and improve rural economic conditions.

Private lenders, such as banks and savings and loan associations, make the loans which are guaranteed by FmHA up to 90%. The interest rate is negotiated by the applicant with his lender. Equity requirements vary but the applicant must have a minimum equity of ten percent.
