College News

Cinderella Bratcher, a college student from Hoke County, has received word of a scholarship award.

Cinderella, currently a sophomore student at Wingate College, will be graduated with an Associate Degree in Nursing on May 18. This scholarship award, from the College Entrance Examination Board, New York, will finance her junior and senior years at East Carolina University or the University of North Carolina.

CEEB scholarship awards vary in amount with the student's need for assistance but are of sufficient size to defray necessary costs.

Miss Bratcher attended Upchurch school for eight years, and was graduated from Hoke County High School. At Wingate College she is vice president of the Library Club and sings with two vocal groups.

The air and soil is still chilly but in the very near future our gardens will be in full production and we will be freezing and canning. Freezing and canning supplies are expected to be more plentiful than last year. Do not wait until the last minute to shop for your supplies.

Raeford Hardware Store has the equipment for checking the gauge on your pressure canner. Your gauge needs to be checked every year. Get your checked now so it will be ready when you need it. Remember all low acid foods would be canned in pressure canner to be safe. The Home Agent's office has two canners that can be rented for a small charge.

If you are not familiar with the use of a pressure canner the Home Agents will be glad to help you. Canning foods correctly is a great way to stretch your food dollar.

Sharon Lynn Currie of Raeford, a graduate at Appalachian State University, has participated in the annual spring tour of the ASU University Singers.

The 55-voice ensemble performed April 3-8 for public schools and communities throughout North Carolina, Virginia and Washington, D.C.

THE BRAND X THAT PACKS A WALLOP

I wonder how shocked and angry the public would be if a new drug (let's call it Brand X) came into use and turned out to have the following effects:

1) Ten million people, including teenagers became addicted to it; 2) Excessive X use caused 50,000 deaths and injuries on the highways each year; 3) 90% of all assaults and 70% of all homicides occurred while the aggressor was under X's influence; 4) 67% of all sex-related crimes against children were committed while influenced by this Brand X drug.

Suppose the list also included suicide, broken homes, and rape!

Unfortunately, X is not an imaginary drug. Its scientific name is ethyl alcohol. Most folks just call it Booze!

Bring your prescription to us after you see your doctor. Our service is unbeatable!
