

RAINFALL, RAEFORD, N. C., APRIL, 1975

Bill Bailey

APRIL SHOWERS....didn't fall very often last month, as April was unseasonably dry. Only seven rainy days were recorded to boost the yearly total to 23.6 inches of rain. At that, April '75 was wetter than last year, with only 1.9 inches of rain and 1975 has been wetter than '74, which had only 15.1 inches of rain for the same period. Local weather recorder Robert Gatlin says that four inches is about normal for April.
