THE AWARE SHOPPER
By Barbara Sullivan
A&P Director of Consumer Affairs

Product Freshness

On virtually all A&P products—grocery, dairy, and bakery—where freshness is essential to quality, we print a date in plain language. No codes.

This is what we call the PULL DATE: the last day on which the product may be sold as fresh. After that date, it is pulled from the shelf.

But this does not mean that it's the last day you can use the product and still expect it to be fresh. We allow for a reasonable time to store and use the product at home. Milk, for example, if refrigerated, can be used for seven days from the time when you bought it.
