Potatoes: The Old Stand-By

Potatoes are available in three basic varieties: new potatoes for boiling, general purpose potatoes, and baking potatoes. They may be long, round, or somewhere in between and may be a "white", "red", or "Russet" color classification. To obtain quality potatoes, which will last longest at home, look for smooth, firm, well-shaped varieties with few or no eyes. Avoid potatoes with sprouts or green spots. Green spots are caused by exposure to natural or artificial light and give the vegetable a bitter flavor.

Quality doesn't end in the selection. Potatoes bruise easily, so handle them carefully at home. Proper storage is the key to keeping general purpose and baking potatoes several months after purchase and "new" potatoes for several weeks. Since dampness increases the rate of decay, store them unwashed in a cool, dark well-ventilated area.

News for the diet-conscious! One medium-sized potato contains less than 100 calories.
