

WRONG - Although the city landfill has been open all day on Saturdays for over a month, the sign leading to the entrance has not been changed and some people are unaware they may use the landfill until 5 P.M. on Saturdays.

Energy Conservation Week

Citizen Help Urged, Nov. 2-8

November 2-8 has been set aside as Energy Conservation Week in North Carolina in a proclamation issued by Gov. Jim Holshouser.

The week is designed to emphasize that conserving energy is a major priority and several activities are planned.

Suggestions on how to conserve energy were outlined by the Department of Military and Veterans Affairs in connection with the planned week.

Tips For Saving Energy

For The Motorist:

Avoid jack-rabbit starts. Accelerate slowly except when entering high-speed traffic lanes or when passing. Hot rod driving and a jerky acceleration can increase fuel consumption by 2 miles per gallon in city traffic.

Avoid excessive idling. The average American car consumes a cup of gasoline every 6 minutes when idling. Don't idle the engine for more than a minute if you are waiting for someone - it takes less gasoline to restart the car than it does to idle it.

Break gas wasting habits. For instance, don't pump the accelerator or race the engine when your car isn't in motion. It wastes gasoline. Use the brake pedal rather than the accelerator to hold your car in place on a hill.

Check tire pressure at least once a month. For best gas mileage and for driving on long trips when heavy loads, inflate your tires 3 to 4 pounds above the recommended pressure, but do not exceed 32 psi. Underinflated tires can decrease fuel economy by as much as one mile per gallon.

Radial tires will give you from 0.5 to 1 more miles per gallon. Do not mix radial tires with conventional tires.

Tips For The Home:

Close the fireplace damper. An open fireplace can draw up to 20

percent of the warm air out of the house - per hour!

"One-place" cooking. Another way to save is to prepare an entire meal in one place - either in the oven or the broiler - instead of using the oven, broiler, and top burners. This saves you work and conserves energy, too.

Traffic control at home. Needless opening of outside doors during cold weather lets large volumes of heat out, and equal amounts of cold air in. Remind little ones to close doors behind them, and keep in-and-out trips down. The reduced traffic will mean a warmer, draft-free home.

Closing shades, drapes and blinds can help block drafts around windows and keep heat from leaking out. On sunny days, open the shades, drapes and blinds to let the sun help heat the house.

Extend the life of a water heater. Several times a year, drain a pail or two of water from the faucet located near the bottom of the heater to remove sediment and mineral deposits from the bottom of the container. Sediment build-up makes a gas burner work harder, thereby using more gas and shortening the water heater's service life.

Fix leaky faucets. A small leak that fills a coffee cup in 10 minutes wastes 3,280 gallons of water a year. You can conserve energy and money just by replacing a washer promptly.

Clean the lint filter in your clothes dryer before each use to insure its maximum efficiency.

Cut down on energy and ironing by removing no-iron clothes immediately from the dryer, thus eliminating wrinkles.

Community Calendar

Compiled by
Raeford-Hoke Chamber of Commerce

Thursday, October 23, 1975, the Kiwanis Club will meet at 6:30 P.M. at the Civic Center.

Saturday, October 25, 1975, Hoke Historical Tour at 9:45 A.M.; will meet at the Presbyterian Church parking lot which is located behind Raeford Saving & Loan.

Tuesday, October 28, 1975, the Lions Club will meet at 6:30 P.M. at the Civic Center.

Cameron Heights Senior Citizens Club will meet at 10:00 A.M.

Farm Items

W. S. Young & Freddie O'Neal
County Agricultural Agents

Sellers of livestock were put on notice by the Nebraska Supreme Court recently that the Uniform Commercial Code put new burdens on them.

As a matter of future law, the court said: "Where a seller sells animals for the purpose of breeding and raising young and improving the quality of a herd, knowing that the buyer is buying animals for such purposes and is relying on the seller's skill or judgement to select or furnish suitable animals, there is an implied warranty that the animals are reasonably fit for such purposes and that they are not infected with a disease which substantially destroys their value for such purposes."

The publication "Sam'l Grain On-Farm Test Report for 1975" is available from the county Extension office. This booklet dis-

cusses the rate of nitrogen demonstration, the different planting dates demonstration, and the seeding rate demonstration. It also gives the characteristics of all the leading varieties of wheat and barley. If you plan to raise small grain, you should use the variety most adaptable to your farm.

Have you ever thought about what the agriculture in Hoke County will be like in twenty or thirty years? Another thought might be what section of the county will it be grown in? Will we be smart enough to plan for areas to produce food that will not interfere with the places that people live. We already have problems with the use of agricultural chemicals. Are local land use plans the answer to these problems? Perhaps we should be studying this situation now.

Three Hoke High Grads Honored At Symposium

Three Hoke High graduates were among those honored at the 36th Annual Accounting and Taxation Symposium held Oct. 18-22 in Chapel Hill.

Edward L. Cameron, CPA and partner with Price Waterhouse & Co., New York, delivered a program on "Financial Reporting in Units of General Purchasing Power" to the North Carolina Association of Certified Public Accountants.

Two other former Raeford area accountants, Jane McPhaul Shankle and George Harold Wilson, attended the fall awards dinner as guests of honor.

SUPPORT THE BUCKS

Mrs. Shankle and Wilson now both live in Raleigh.

Cameron is the son of Mrs. Winnie Cameron of Timberland. Mrs. Shankle is the daughter of Mr. and Mrs. Cecil McPhaul of Antioch. Wilson is the son-in-law of Mr. and Mrs. Robert Gatlin of Raeford.

Who's Who Taps Student

Ann (Missy) Upchurch, a senior at Meredith College and daughter of Mr. and Mrs. T. Joe Upchurch of Raeford, was elected to Who's Who

Among Students in American Universities and Colleges.

Restaurants Rate 'A' On Inspections

All restaurants and food handling establishments are currently certified as grade 'A', according to the most recent inspections for the last quarter made by the health department.

Grade 'A' rating is based on a score of 90% - 100%, Grade 'B' is 80% - 90%, and Grade 'C' is 70% - 80%. Any establishment rated below 70% is not allowed to operate.

The name of the establishment and the date of most recent inspection are listed as:

Establishment	July	Aug.	Sept.
Airport Grill	90.5		
Aleatha Pizza King		93.0	
Bantam Chef	91.5		
Big Star Truck Stop		90.0	
Checkerboard Grill	93.0		
Family Restaurant		Canceled	
Flowers Grill		Canceled	
Hoke Drug Co.			92.0
Howell Drug Co.	93.5		
Kermit's BBQ		Canceled	
Little Hungery			94.0
Little Mint	91.5		
Little Whale	90.5		
Parks Grill			90.0
Pig 'N' Chicken	94.0		
Porter & Locklear Seafood			91.0
Rowlands BBQ			93.0
Southern Restaurant			91.5
South Hoke Grill	93.5		
Virgils Drive-In			91.5
Dolly's Seafood & BBQ			92.0
Corner Grill			Canceled
Rosa's Grill			91.0
A&P Super Market	91.0		
Home Food Market			94.5
Marks Food Store			92.0
House of Raeford, Inc.			92.0
Open Arms Rest Home			91.5
Tanglewood Motor Court	91.0		

Deaths And Funerals

William Faulk

Funeral services for William Faulk were held Sunday at 3 P.M. at the United Methodist Church. Burial was in Raeford Cemetery.

Faulk, 50, died Friday. Surviving are his wife, Mrs. Allyne Maxwell Faulk of Raeford; two daughters, Mrs. Karen Rosa of Colonial Heights, Va., and Miss Judy Faulk of Raeford; and his mother, Mrs. Pauline Faulk of Raeford.

Mrs. Minta H. Taylor

Mrs. Minta Hall Taylor, 96, widow of Dr. H.C. Taylor of Charlotte, died Oct. 13 at Moore Memorial Hospital in Pinehurst.

Mrs. Taylor, born in 1879 in Cherokee County, N.C., was the daughter of the late Mr. and Mrs. James Bryson Hall. She was active in the work of her church and an Eastern Star member.

Surviving are a daughter, Mrs. Nelda T. Baucom of the home; three grandchildren, Imogene B. Stephens and H. Ransom Baucom of Raeford, Yvonne B. McMillan of Red Springs; and eight great-grandchildren.

Funeral services were held at the First Baptist Church in Raeford at 10:30 A.M. on Tuesday, Oct. 14 by Rev. Jack Mansfield. Graveside services were held at 2:30 P.M. at the Forest Lawn Cemetery in Charlotte.

College News

GREENSBORO--The University of North Carolina at Greensboro has an enrollment of 9,459 this fall, including three students from Hoke County.

The three students from Hoke County are: Evelyn M. Brown, 813 N. Main St.; Martha C. Staton, 715 E. Donaldson Ave., and Sharon A. Wood, Rt. 3, Box 56, all of Raeford.

Wayne Manning, son of Mr. and Mrs. Ed Manning of Raeford, graduated Sept. 21 from the Deep Sea Diving Academy, Ft. Pierce, Fla.

Manning graduated fourth in his class.

He is presently employed at the Carolina Underwater Salvage Company in Charleston, S.C.

Dawn Parks, a junior majoring in music and voice at the University of North Carolina at Chapel Hill, is a member of the internationally known Carolina Choir.

Miss Parks, of Rt. 3, Raeford, is a graduate of Washington High School.

Club Hosting Crafts Sale

The Raeford Junior Woman's Club will hold a crafts bazaar Saturday, Nov. 1 from 10 A.M. to 2 P.M. at the Edenborough Shopping Center. Numerous handmade crafts will be on display and offered for sale. The public is invited to browse for Christmas gifts at especially reasonable prices.

A drawing for a \$100 certificate for groceries will be at 1 P.M. The winner does not need to be present to claim the prize. Tickets for the drawing are \$1 and may be purchased from any member of the Junior Woman's Club.

School Menu

Friday, Oct 24
Sloppy Joe

SCS Activities

F. O. Clark, District Conservationist

An established conservation practice for North Carolina in October is small grain seeding to combine the best features of minimum tillage, crop rotation and double cropping, says Emmett R. Waller of Raleigh, conservation agronomist for the USDA-Soil Conservation Service.

In a typical pattern being used by more and more Tar Heel farmers, small grain is harvested in the late spring and followed by soybeans, grain sorghum, or silage corn planted by the "no till" method. This not only provides two cash crops on the same acreage in one season, but protects soil and water resources on the farm, Waller said.

No-till planting saves time and tractor cost, conserves moisture and protects the soil through use of the previous crop residue.

Many farm operators also find October an excellent time to add lime and other plant nutrients to overcome soil deficiencies, and, when preparing the small grain seed bed, incorporating the material in the soil.

Seeding tall fescue in the small grain crop will reduce insect and plant diseases affecting tobacco, Waller added. The increases infestation this past season has renewed the importance of this practice among tobacco producers. Fescue is resistant to many diseases and insects which attack tobacco plant.

DID YOU KNOW THAT YOU HAVE THREE KINDS OF MONEY?

- 1 That's the money you need daily for groceries, clothing, rent, drugs, etc. It belongs in checking.
- 2 This is the money you don't need immediately but can get your hands on quickly. This earns 5% in a savings account.
- 3 This is money you save for a college education or the down payment on a home and you won't use soon. This belongs in a Certificate paying an unusually high rate.

Our money managers can advise you on how to get the most for your dollars and they are anxious to help. Stop in.
