## Holiday Toll Prediction-21

Approximately 21 persons will die in traffic accidents on North Carolina highways during the Easter weekend, the N.C. State Motor Club predicted.

The toll will be counted during a 78-hour period from 6 p.m., Friday, April 16, until midnight Monday, April 19. Last year, 25 persons were killed during a similar period.

Thomas B. Watkins, chairman of the statewide motor club, said he hoped this year's Easter holiday would be safer than a year ago.

"Last year speeding was involved in 14 of the 17 accidents in which fatalities occurred," he pointed out. "This year I hope our drivers will observe existing speed limits and be more aware of safe-driving habits."

Seven of last year's fatal acci-

dents were caused by speeds in excess of 75 miles per hour.

"By driving fifty-five and under," Watkins said, "we can help reduce the possibility of highway deaths. Our state's record for the year has been good, thus far, and I hope the Easter weekend will be our safest holiday in many years."
