

Don't Play Games

If you want to gamble with your money your odds of winning are lots better in Las Vegas. Just think about it... if the odds in these supermarket games tell you your chances of winning are One out of Two Hundred Thousand, then it could take you Three Thousand Eight Hundred Forty Six years (assuming one shopping trip per week). In that same period of time a Food Town customer would save Eight Hundred Thousand if she saved only Four Dollars per week. With odds like this, is it any wonder that at Food Town we don't play games with YOUR money. We sell groceries for LESS, and that's what SMART shoppers are looking for.
