

for FAST ACTION use the

RECRUIT—Marine Pvt. Charles E. Baker, 19, son of Alfred Baker of Raeford, has completed the infantry combat training course at the Marine Corps Base, Camp Pendleton, Calif. During the six week course, Baker received classroom instruction and participated in field exercises involving infantry tactics; the construction and camouflage of fighting positions; and the use of mines, demolitions and intra-company communications equipment. A 1975 graduate of Hoke High School, he joined the Marine Corps in January 1976.

• **Service Personnel**

Spec. 4 Mary D. McCollum was awarded the Army Commendation Medal July 22 at ceremonies at Ft. Bragg.
Spec. 4 McCollum, the daughter of Mr. and Mrs. Lawrence McCollum, Rt. 1, Raeford, is assigned to the Personnel and Pay Service Division.

— **COUNTY BOARD** —

Continued from page 1
okay the payment failed to draw a second;
Authorized a ten cent pay raise to workers employed under the emergency public service job program;
Scheduled a meeting at 9 A.M. on Aug. 18 to interview applicants for the vacant tax listing supervisor's position;
Authorized solicitation of bids for new air conditioning equipment in the office areas of the jail;
Agreed to continue to provide Four County Community Service, Inc., an anti-poverty agency, with office space in the county office building in lieu of cash contributions.

• **Phone Proposal**

The board also received a letter from the State Utilities Commission advising them that rates proposed by Carolina Telephone & Telegraph (CT&T) for extended area service between the Raeford-Fayetteville-Ft. Bragg exchanges were acceptable for polling purposes.
According to Robert K. Koger, director of engineering services, the proposed increases would be \$4.10 for a one party residential phone in Raeford and an \$8.45 increase for a business phone, monthly.
No date was given for the subscriber's poll to be taken to determine if Raeford customers approve the new service, but Koger said it would be 18-24 months before the new service could go into effect if it is approved.

be bare-fists from here on out, and the Republican candidates will not be far behind!
SAM JOHNSON -- Former State Rep. Sam Johnson is finding that the August date for the primary is not popular. He says it is like observing Christmas in summertime! Sam is campaign manager for Jimmy Green in the latter's lieutenant governor's race.
HOT QUESTION. "I'll never go anywhere with you again as long as I live," the wife announced.
"And why not?"
"You asked Mrs. Smith how her husband was standing the heat, and he's been dead two months." -- From J.D. Fitz's "Giving 'Em Fitz."

Farm Items

By W.S. Young, County Extension Chairman

The booklet has been released on the "Measured Crop Performance of Small Grain for 1976." One copy is available at the agents office for information.

For wheat, the three year average, the experimental N.C. 9 was the highest yielding entry. Some varieties were severely damaged by the late freeze. McNair 701, Arthur 71, Abe and Oasis are other varieties that stood up well. Coker 74-27 had a good yield for a two year average.

The summary for barley and oats varieties in the Coastal Plains text are available in the book.

Some tobacco growers will be through burning tobacco in the next two weeks. It is most important this year that the tobacco stalks be completely destroyed as soon as possible after harvest is completed. Mosaic, potato virus Y and etch virus or vein banding have been very bad in the county this year. These things can be carried over the winter if the job is not done. This is also a year that it is most important that your neighbor destroys his stalks too. Let's make a community effort out of it or yields might be affected next year. This will be a good time to rotate the tobacco out of the present fields, especially if you had a great deal of Mosaic.

All types of livestock should have access to all the clean water that they will drink during this warm weather. Gains in weight will be slow if water is restricted. Breeding animals will not gain weight or will not perform unless they are kept cool and have plenty of water. Minerals and salt should be supplied free choice during the summer months. Many livestock producers tend to forget the animals when they get busy harvesting crops. Year round care is a must if animals produce their best.

Scotland Rest Home Sets Open House
